Way

MENU

The Maritimes

Shipping and industrial development have had much to do with the growth of the maritime provinces.

The sailing vessel has given place as the ocean carrier of Canada's commerce to the cargo liners of the Canadian Government Merchant Marine, operated by Canadian National Railways.

The
National
Way

At Your Service Everyday

THE service of the "National Way" is designed to please its patrons. The equipment being purchased is the most modern obtainable. Our new steel cars embody the latest features of construction, strength, convenience, and comfort. The vast army of chefs, waiters, and attendants has been selected with care and it is the desire of all these employees to serve you satisfactorily. With over 100 dining cars and 250 sleeping cars operating over 17,000 miles of territory, the difficulties of maintaining a service such as is given by the Canadian National Railways on these hundreds of moving units are hard for the travelling public to appreciate. We will be glad if you will help us to maintain our standard by reporting to the officer in charge of any car you travel in, any service not satisfactorily rendered.

Criticisms of features of our service sent to the undersigned will be appreciated.

Walter Pratt
Manager of Sleeping & Dining
Car & Hotel Department
Toronto
