Maritime Vacation

The Canadian National Railways take you to all three of Canada's Atlantic provinces — Nova Scotia, New Brunswick and Prince Edward Island Here, where much of the Dominion's history had its beginning, you will find great seaports, intensified industry, fruitful farmlands, and playgrounds of endless diversity and delight rugged highlands contrasted with pastoral valleys, surf-battered rocky shores contrasted with miles of white, sandy beaches forests where you may hunt deer and bear, famous streams where you may catch salmon and trout If you want deep sea fishing, you can wrestle with tuna and swordfish If you want sailing or canoeing, you will go a long way to find it better Nova Scotia is New Scotland, and there are places — like Cape Breton Island — where the people still speak Gaelic and carry on the ancient folkways The other provinces have their own individual colors, too, their local history, interwoven with the beauty and surprise of their landscape and seascape But don't think it's a primitive country In contrast with little fishing villages and wilderness camps are fine cities and modern hotels, like the Nova Scotian in Halifax, The Charlottetown in Prince Edward Island, and the summer resort, Pictou Lodge There's fun for you in Canada's Maritimes.
