"Meat, for thy health's sake"

The pulp and paper, the timber, the mining and the manufacturing industries have grown enormously in Canada in the past few decades, but the greatest single industry is still agriculture. While wheat and the coarse grains remain in the top place, the livestock industry has taken on a new importance and Canadian beef and bacon have a proud reputation at home and abroad.

In one year recently Canada's cattle population numbered nearly 11,000,000, hogs have reached a total of 8,000,000, sheep and lambs nearly 4,000,000 and domestic fowl nearly 84,000,000.

This is enough of statistics. We won't give any figures for milk and cream, butter and cheese and eggs. It is enough to say that dairy production means several hundred millions of dollars a year to Canadian producers.

"In good meat is much glee", said one of the shepherds in a traditional English Christmas play. Good meat is served in all Canadian National hotels and dining cars. The Railway buys the best and skilled chefs prepare it in a wide variety of appetizing ways for your pleasure and your health as you travel.

The Canadian National
Railways look upon you
as an honored guest. It
is a privilege to serve you.
