

JASPER

NATIONAL PARK • CANADIAN ROCKIES

CANADIAN  **NATIONAL**
THE RAILWAY TO EVERYWHERE IN CANADA

How do you get to Jasper? Pausing on its way across six of Canada's ten provinces, the crack "Continental Limited" sets you down in this mountain wonderland.

Invitation to Pleasure

This is your invitation to fun.

Accept it and you'll have the best vacation you have ever enjoyed.

By words and pictures we have attempted in this book to tell you about hotel comforts and conveniences, about a famous golf course and an open air swimming pool, about motoring, trail riding and fishing. For the rest—for the exhilaration of the air, for the lift given to your spirit by the mountain peaks and the alpine meadows, the turbulent rivers and the cool transparent lakes—you'll have to read between the lines.

You can't get Jasper out of a book.

You'll really have to go and experience it for yourself.

R.S.V.P. to your Canadian National agent. He'll be glad to help you plan your trip.

The Time And The Place

Jasper is at home to you all the year round, but the height of the season is between the middle of June and the second week of September. That is when Jasper Park Lodge is open. When you come depends upon your own pleasure, but you can't make your reservations too early.

At the back of this book we tell you about other hotels, chalets, cabins and camps in the Park.

How you come depends, of course, on where you live. Jasper National Park lies in the northern Canadian Rockies, on the border between the provinces of Alberta and British Columbia. It is on the main transcontinental line of the Canadian National Railways, directly reached through Vancouver and Prince Rupert on the Pacific Coast, through Edmonton, Saskatoon and Winnipeg in the western provinces, and Toronto, Montreal and other eastern cities.

The town is an important division point on the C.N.R. and is the administration centre of the Park. Here, in addition to the government offices and the railway facilities, the churches, shops, restaurants, hotels and banks, is situated a public recreation centre with the only Olympic size outdoor swimming pool in Canada, six tennis courts, a bowling green, artificial ice skating and curling rinks, a lounge and an auditorium.

Jasper National Park was created in 1907, the railway came through a few years later and the Lodge was opened in 1922. Not counting the Indians, at least a century of history rolled by before those dates, for the route of the explorers, the fur traders and the fur brigades went across the passes of Jasper's mountains to the western sea.

It is to a fur trader that Jasper owes its name. No one knows much about him except that his name was Jasper Hawes, he had yellow hair and he came from Missouri.

Maybe he had heard of these magnificent mountains and valleys and as a man from Missouri he had to be shown.

Room to Spread Yourself

Jasper is the largest national playground in the world.

If you were ambitious and had time enough, you might take it all in. Motor highways traverse most of its length from north to south, with branches east and west, and where they don't go you find the pony trails, hundreds of miles of them, striking off in all directions to the outermost boundaries of the Park.

But you don't have to do a lot of travelling, you don't have to explore many of Jasper's 4,200 square miles, to enjoy this great mountain playground. You don't have to be a horseman, a climber or even a hiker. You can take it easy. Without stirring very far from your hotel you can get to know the mountains and have a vacation you will remember all your life.

The size of Jasper will permeate your consciousness but it won't make you feel small. You are surrounded by massive mountains, some of them mantled in snow all the year round, but they never oppress you with that shut-in feeling. Your railway train sets you down in the Athabaska Valley and its spaciousness makes you feel you have room to breathe and stretch, room to spread yourself.

From the Lodge grounds you look across shimmering Lac Beauvert to the lovely contour of Mount Edith Cavell.

Jasper Park Lodge

The social centre of the Park is Jasper Park Lodge, the Canadian National Railways' summer hotel on the shore of Lac Beauvert, about three miles from the railway station. The Lodge is so well known—it has been extending its hospitality to world travellers for more than a quarter of a century—that you will not be surprised to discover that, instead of being one big building, it is a charming village of log bungalows. It was designed to harmonize with its surroundings and built of Jasper's own trees and stones.

Don't get the idea, however, that you'll be camping at the Lodge. It has all the refinement of a first class city hotel—good beds, attractive furnishings, hot water, telephone, a pleasant dining room where meals worthy of an epicure's palate are graciously served, an expansive lounge whose huge stone fireplaces and easy chairs invite you to relax in comfort after a day in the open, a ballroom where you may see movies and then dance to a smart orchestra.

Beautifully landscaped grounds lead down to the shimmering lake and its canoes and to the heated open air swimming pool with its high diving boards and its shallow section for the kiddies. It is only a step to the hard-surface tennis courts and a short walk to the corral where the saddle ponies are brought for your trail rides. Limousines drive up to the door for your trip to Mount Edith Cavell or the Columbia Icefield. The golf course is a pleasant stroll away.

Out of Jasper's own trees The Lodge was built, its natural unpainted logs and shingled roofs blending with the mountain landscape.

Vivid green grass and trees,
gorgeous flowers, sparkling water
and snowy mountaintops,
under a sunny sky . . .

what an enchanting setting
for this little village
of bungalows which is Jasper
Park Lodge.

On those cool mountain evenings, after a day in the open, you'll enjoy relaxing in the lounge and find the great stone fireplace a boon.

In Jasper you eat like royalty and sleep the sleep of the just.

Top Flight Golf

Among the guests at the Lodge last summer were a couple of keen golfers from Scotland. They spent most of their waking hours every day on the links. Good sturdy Presbyterians, they scrupulously denied themselves a game on the Sabbath, but they couldn't resist that course. They left their clubs behind but, after church in the morning, they set out to walk the fairways and greens from the first hole to the 18th, studying every trap and water hazard and working out Monday's strategy.

That's the way Jasper's famous course affects people. It's a championship course—6,700 yards, par 71—one of the finest on the continent. The hazards include the beautiful mountain terrain, which makes it hard to keep your eye on the ball, and sometimes a bear unconcernedly ambling over the grass, but they do not include strenuous climbs. It's a mountain course but a comfortable one.

It is laid out on the British principle, with the ninth hole farthest away from the clubhouse, but an additional three holes permit a nine-hole game, taking you back to the clubhouse with no cutting in.

Golf Week, culminating in the Totem Pole Tournament, attracts high calibre players, both men and women, every year.

Expertly designed, perfectly groomed for 25 years, the Jasper course is a joy, to champions and duffers alike.

It's a long tee shot over water to this lie on the 14th fairway.

The sixth green and, beyond the bunkers, No. 10 fairway.

VIEW POINT

5
PARK
FORD

On the way up to Mount Edith Cavell and the Angel Glacier (right) you see unforgettable alpine panoramas.

Journey to a Mountain

Crowned with everlasting snow and ice, Mount Edith Cavell soars above the valley in superb beauty. You see it when you step from the train, you gaze at it across the lake from the Lodge, and if you take none of the other splendid motor drives, you shouldn't miss the trip that brings you to the foot of this mountain.

Thrilling switchbacks, revealing panoramas more and more wonderful, carry you over 20 miles and up 2,000 feet, to the outspread wings of its Angel Glacier. When you are there you may refresh yourself at the tea house and have the unusual experience of walking over the living ice.

Once the peak was the signpost directing the early explorers on their way through the passes of the Rockies to the Pacific Ocean. To you it stands as a symbol of all that is impressive and beautiful in Jasper.

When you ride in to Maligne,
you will find a comfortable
chalet at journey's end—

and the most thrilling scenery
you have ever seen in your life.

Mile High Lake

From the Lodge to the end of Maligne Lake and return is a journey of 100 miles and, take it from the people who know, you'd do a lot of travelling to find another 100 miles as fascinating. You can ride over the Skyline Trail on a trip that takes four days, or you can do it in a day by automobile and motor boat.

Going the easier and quicker way, you drive from your hotel to the spectacular Maligne Canyon and Medicine Lake. After a five-mile trip across Medicine, another car takes you along the Maligne River to the great lake.

It isn't size that makes Maligne great, although it is the largest glacier-fed lake in the Rockies; it is sheer breath-taking beauty. A mile above sea level, it is walled in by mountain peaks that reach another two miles and more into the air. They are impressive mountains, steep as skyscrapers and much more massive. You can see them from the chalet, but to get the full perspective of their tremendous shapes and their glittering ice you should take the 17-mile boat trip to the end of the lake.

Maligne is not only famous for its beauty. Alpinists treat its mountains with respect and speckled trout fishermen sing its praises.

Lens Luck

When you are happy, time passes all too quickly and your vacation at Jasper seems to go in the twinkling of an eye. What can you do to carry some of it back with you to the workaday world? You can take the health you have stored up and you have your memories. There's something else, though.

"Time flies over us," said Hawthorne, "but leaves its shadow behind." He might have been thinking of photography. Trap the shadows of those delightful hours on the film of your camera! Take them home in movies or stills, in black and white or color.

That hole where you got the birdie; the trout that won you the Maligne River Anglers Club button; somebody you know on horseback, drifting in a canoe, or just relaxing prettily against a wonderful background; the peaks and the glaciers; the busy beaver; the comical bear, the mettlesome moose or the shy deer, the high-stepping mountain sheep and goats—you'll want them all. Keep your camera handy and take Jasper home in your pocket.

Climb, if you Must

Some people are just not satisfied with looking up at mountains. They can't rest until they fight their way to the top so that they can look down. For those who like that sort of thing—holding on to rocks by finger tips and toes, digging steps in the ice, swinging dizzily on a rope—the rewards in Jasper are great. There are easy climbs for the novice and tough ones for the alpinist of long experience. Alpine club camps are frequently pitched in the Park.

You can take Jasper the hard way—

or have your fun as a casual hiker.

The majestic Ramparts rising above Amethyst Lakes in the Tonquin Valley.

The Lure of the Trail

Even if they have never been on a horse, most people want to ride when they get to Jasper. Not many of them are Hopalong Cassidys or Roy Rogerses. But the ponies don't mind that: they take everybody in their stride. They're knowing critters, with a pretty good idea of human nature, and if the wrangler happens to be looking the other way when you mount from the wrong side, the ponies won't say anything. They are not all alike, of course, but you will have help finding one to suit your speed—high-spirited if you're experienced, benevolent if you're not.

Once in the saddle, you can really go places. You'll probably want to start with a short ride—say the seven-mile two-hour trip over the Buffalo Prairie Trail to Old Fort Point, which thrillingly opens up the Athabaska Valley to you. Then you'll graduate to Maligne Canyon or the Sawdust Trail, 12 miles each, riding time three hours. The Canyon is a spectacle you shouldn't miss, and the Sawdust Trail takes you through deep forest, by the shores of lakes and rivers and high enough up the slopes to give you that sense of size and grandeur we spoke about at the beginning of this book. Caledonia, Pyramid and Wabasso Lakes are the objectives of five-hour rides.

When you're well seasoned, you'll be ripe for a trip into the Tonquin Valley, where the jagged Ramparts rise above the Amethyst Lakes, or to Maligne Lake and back over the Skyline Trail. On these longer saddle trips, you will be comfortable in chalets and camps in the midst of mountain splendor at high altitudes.

If you really want to know the mountains, the trail's the way.

Superlatives Wanted

Hard as it is to be matter-of-fact in talking about a place like Jasper, we have avoided superlatives in this book. Coming to the Columbia Icefield, however, there is a great temptation to break loose.

It is giving the Icefield no more than it deserves to call it one of the wonders of the world.

Covering an area of more than 110 square miles, it is the largest and most impressive body of ice outside the Arctic Circle. Its average elevation between 9,000 and 10,000 feet, its loftiest peaks towering to 11,000 and 12,000, it is the roof of the Canadian Rockies and the geographical centre of the water system of a quarter of North America. Out of its massive glaciers spring streams that swell into mighty rivers carrying fertility to a vast terrain and pouring into three oceans. Mile-wide Saskatchewan Gla-

cier, spreading six and a half miles down into the valley, sends waters to Hudson Bay and the Atlantic. Out of Athabaska Glacier go streams that travel 2,000 miles to the Arctic through the delta of the fabulous Mackenzie. Other waters find their way to the Columbia and the Pacific Ocean. No wonder they call it "Mother of Rivers".

The 75-mile motor drive along the Jasper-Banff Highway from Jasper Park Lodge is a must for every visitor. The scenery is thrilling and the Icefield is the stupendous climax.

At the foot of the mighty sweep of Athabaska Glacier stands a comfortable chalet where you may stay and prolong your pleasure. From there you may explore the Icefield on foot, horseback or snow-mobile or enjoy spectacular summer skiing.

This great Icefield is easy to reach by highway and the back-country by horse.

Jasper is a wild life sanctuary and you can shoot animals only with the camera. Shy deer and comical bear are close at hand and willing to pose if you are tactful.

Not so easy to reach are the lordly moose and elk and the highstepping mountain goats and bighorn sheep, but patient hunting will bring them within range of your lens.

Fighting Fish

On the lower Maligne River, a few miles from Jasper Park Lodge, you will find the Government Fish Hatchery where hundreds of thousands of eggs are hatched every year and developed into fingerlings so that the lakes and streams of the Park may be well supplied with sporty trout.

The Hatchery is a fascinating place to visit, even if you're not an angler. If you are, you'll go to the waters where the fish come to maturity—the Amethyst Lakes and the Astoria River in the Tonquin Valley for Rainbows; Jacques Lake for Dolly Varden; Maligne River and Maligne Lake for Eastern Brook (Speckled) Trout. There are fish in plenty of other lakes and streams, too.

All the spots are easy to reach and the trout give you plenty of action.

If you go to the Maligne area, you'll undoubtedly become a member of the Maligne River Anglers Club. A fish of a pound or more entitles you to the bronze button. The angler who catches the heaviest trout in the season gets a gold button to prove his championship. A silver button goes to the second.

Happy landings!

Rainbow, Speckled, Dolly Varden and Lake Trout are plentiful in Jasper's waters and re-stocking is scientifically practised. On the left is shown one of the rearing pools at the Government Fish Hatchery, a point of interest for visitors.

You Meet Nice People

On the golf links, in the swimming pool, on the trail, in the lounge or the ballroom, many a lasting friendship has been kindled at Jasper Park Lodge. Many a romance has blossomed. You meet nice people at Jasper. Keep to yourself, if you like it that way, but to most people the opportunities for congenial social intercourse are half the fun of a mountain holiday.

Mount Robson, Monarch of the Rockies, altitude 12,972 feet, is in full view from the Canadian National lines.

Tallest of them All

At Jasper you are only two short hours away by train from the highest peak in the Canadian Rockies. This is Mount Robson, which towers up just outside the west boundary of Jasper National Park over the Great Divide in British Columbia. Armored in eternal ice and snow, it is a glorious sight from the Canadian National lines to Vancouver and Prince Rupert.

But its majesty is even more apparent from close range. On foot or on horseback, you may make your way through the Valley of a Thousand Falls, past the roaring Emperor Falls, around the great mountain to Berg Lake on the north side. Here three immense glaciers cling to Robson's flanks. From the most spectacular, Tumbling Glacier, great blocks of ice break off and hurtle into the shining lake to become icebergs.

Mount Robson Provincial Park is the centre of superb big game hunting. Accommodations are good and reliable guides, who know the territory as well as the palms of their hands, see that you get sport at its best.

SIGHTSEEING MOTOR DRIVES

NOTE:—Starting point of all sightseeing drives—Main Entrance, Jasper Park Lodge.

The Station Agent at Jasper will make arrangements for railway patrons, who are not guests of the Lodge, to be taken from the station, in Jasper Park Lodge motor equipment, on any of the scheduled drives, Nos. 1 to 8, inclusive. Regular rates will apply.

Departure hours and schedules for these drives have been carefully planned to permit visitors to view without haste the scenic wonders of the Park.

No. 1: General Drive—Thirty-five miles return. Motors leave the lodge at 9:30 a.m. and 2:30 p.m. **Time, approximately 3 hrs. Bus fare per person, \$4.00.** This drive embraces a wide variety of valley, lake, canyon, and mountain scenery and includes a visit to the Fish Hatchery and a side trip to see the bears. The route, after following the Athabaska River, skirts Lakes Annette and Edith before gradually ascending the roadway to Maligne Canyon. From this vantage point the tourist stands in awe before the snow-capped grandeur of lordly mountains and the mighty sweep of the Athabaska Valley, which loses itself in endless vistas of alpine beauty. Maligne Canyon, a tremendous gorge descending to a depth of 188 feet, and remarkable for its potholes, is a never-ending source of wonder and amazement. On the return journey the Athabaska River is followed to its junction with the Maligne River where a stop is made to view the Government Fish Hatchery; from here the route continues over the Athabaska River bridge to join the Main Highway to Jasper, where a glimpse is obtained of "the Raven", one of the largest totem-poles in existence. Continuing along to the foot of Pyramid Mountain and passing en route Lakes Patricia and Pyramid, the drive again runs through Jasper before terminating at the Lodge.

No. 2: Glacier of the Angel (Mount Edith Cavell)—Forty-four miles return. Motors leave the Lodge at 9:15 a.m., and 2:30 p.m. **Time, approximately 3 hours. Bus fare per person, \$4.00.** Offering excellent motoring, this drive by a course of wide-sweeping switchbacks reaches an altitude of nearly 2,000 feet above the floor of the valley and gives the tourist an ever-changing series of strikingly beautiful panoramas. The highway, terminating at the foot of the famous glacier, affords an excellent view of this vast field of living ice. *The highest point reached on this drive is 6,300 feet above sea level.* Light lunches and refreshments can be obtained at the Tea Room near the foot of the Glacier.

No. 3: Miette Hot Springs and Fiddle River Canyon—Eighty miles return. Motors leave the Lodge at 9:00 a.m. **Time, approximately 4 hours. Bus fare per person, \$6.00.** The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls. A short stop is made to view this unique waterfall, and then the trip continues along the rim of the Fiddle River Canyon for another eleven miles before finally reaching the famous Miette Hot Springs. At this point, hot sulphur spring water, varying in temperature from 79 to 128 degrees F., comes boiling out of the mountain side. Motors will remain long enough to permit bathing in the pool. *The highest point on this drive is 4,510 feet above sea level.*

The Miette Hot Springs consist of three main springs, which issue from the rocks along the banks of Sulphur Creek. The springs, non-volcanic in nature, owe their heat to chemical action, caused by surface water coming in contact with certain minerals in the limestone rock formation. The combined flow of the three springs reaches a total of approximately 170,000 gallons every 24 hours.

The Swimming Pool and the Steam Baths at Miette Hot Springs are operated by the National Parks Department.

The rates are:

Swimming Pool — when bathing suit and towel are supplied by the Department: adults, 35c.; children, 25c. When bathing suit and towel are supplied by bather: adults, 25c; children, 15c. Steam and Plunge Baths — 50c. per person.

No. 4: Columbia Icefield (Jasper-Banff Highway)—One hundred and fifty miles return. Motors leave the Lodge at 9:00 a.m. **Time, approximately 7 hours. Bus fare per person, \$10.00. Minimum, 5 persons.** The drive follows the route of the Mount Edith Cavell Drive to a point beyond the crossing of the Astoria River, whence it continues along the valley of the Athabaska. From here the route penetrates through the very heart of the Canadian Rockies to the largest and most impressive icefield outside the Arctic Circle. With an estimated area of 110 square miles, the average elevation of this amazing icefield is between 9,000 and 10,000 feet, which because the waters of its melting glaciers travel thousands of miles to three oceans, the Atlantic, the Pacific, and the Arctic, has been beautifully named "Mother of Rivers". **Unquestionably, this is America's Greatest Scenic Drive.** *The highest point reached on this drive is 7,000 feet above sea level.*

This trip is also operated as an afternoon and evening drive, leaving the Lodge at 2:30 p.m. It is arranged for those who wish to see the wild animals which in the evening twilight come down from the mountains and forests to the rivers and streams along the route of this great highway.

No. 5: Geikie Twilight Drive—25 miles return. Motors leave the Lodge at 7:00 p.m. **Time, approximately 2 hours. Bus fare per person, \$3.00.** This drive, sometimes referred to as the Sleepy Hollow Drive, passes through the town of Jasper and proceeds along a beautiful road winding through a quiet valley with here and there a contrasting noisy waterfall tumbling down to join the Miette River; the route continues West following the Miette River along the base of Whistlers Mountain to Geikie.

No. 6: Maligne Canyon—Medicine Lake (auto-motor boat)—40 miles return. Motors leave the Lodge at 1:30 p.m. **Time, approximately 4½ hours. Cost per person, \$6.00.** The route is over the road to Maligne Canyon and beyond for fourteen miles to the lower end of Medicine Lake; at this point passengers are taken on a scenic motor-boat cruise across the lake. A unique feature of this lake is that, although thirty feet deep during the summer, it completely disappears through invisible outlets in the Fall of the year.

No. 7: Maligne Canyon—Twelve miles return. Motors leave the Lodge at 10:00 a.m. and 2:30 p.m. **Time approximately 1½ hours. Bus fare per person, \$2.00.** This canyon, into which the Maligne River plunges through a gorge 188 feet deep, ranks among the most extraordinary in the Canadian Rockies. The route lies over a gradually ascending roadway from which the tourist obtains magnificent views of lordly mountains and charming vistas of the Athabaska Valley. The fish hatchery on the lower Maligne River beyond Lake Edith is also of interest.

No. 3: Punch Bowl Falls—"A Twilight Drive"—
Sixty miles return. Motors leave the Lodge at
7:00 p.m. Time, approximately 3 hours. Cost
per person, \$3.50. The route, after skirting the
shore of Lake Mildred, follows the Athabaska River,
which it crosses to join the Inter-Provincial High-
way, whence it extends for miles down the Athabaska
Valley to Jasper Lake, and beyond to Punch Bowl

Falls and Valley. Affording a very wide variety of
mountain scenery, this trip is highly recommended
as an evening drive, for after sunset, animal life
frequents the numerous lakes and streams in this
region, and it is usually possible to see sheep, goats,
deer, bears, moose, etc. from the motor-car. Return
to the Lodge in ample time for dancing, bridge, etc.

SADDLE TRIPS

NOTE: Slickers are not provided by the Outfitter.

Saddle Trip No. 1: Jasper Park Lodge Sawdust Trail—Graded to a breadth averaging from ten to fifteen feet and sufficiently wide for a party of three to ride abreast, this bridle path, rendered dustless by a generous application of soft sawdust, forms a vast circuit, with the Lodge itself as a centre. The trail leads through pine and fir forests, by lake shore and river bank, skirts the golf course, and ascends to the bench below Signal Mountain offering from its different vantage points ever-changing vistas of the charming Athabaska Valley. Unquestionably, this is the most beautiful and scenic twelve-mile horseback ride on the Continent. Riding time, 3 hours.

Saddle Trip No. 2: Maligne Canyon—The route is over the back trails away from the motor roads and follows the Athabaska Trail, traversing the entire length of Maligne Canyon. A beautiful, easy ride of 12 miles return. Riding time, 3 hours.

Saddle Trip No. 3: Golf Course and Old Fort Point (Hudson's Bay Table Top)—The route skirts the greater part of the golf course, proceeds up the Buffalo Prairie Trail to the top of the ridge and out on to Old Fort Point. This trip affords a splendid view of the Athabaska Valley, the Lodge, Mt. Edith Cavell, and the mountains on both sides of the upper river. Distance, seven miles return. Riding time, 2 hours.

Saddle Trip No. 4: Caledonia Lake — Fourteen miles return. A small lake lying west of Jasper on a rocky bench above the Miette River, Caledonia Lake is reached by passing through Jasper and following the Miette road to Cabin Creek Bridge. Here the trail branches off and follows the left bank of Cabin Creek. Riding time, 4½ hours.

Saddle Trip No. 5: Pyramid Lake — Sixteen miles return. This trail leads the rider through Jasper, ascends the hill to the north, crosses Cottonwood Creek Valley, and then passes along the ridge above Pyramid Lake. Riding time, 5 hours.

Saddle Trip No. 6: Buffalo Prairie-Wabasso Lake. Twenty miles return. An interesting trail winding through beautiful scenery. Excellent fishing in the lake waters. Riding time, 5 hours.

Saddle Trip No. 7: Maligne Lake and Sky Line Trail Trip—For those who enjoy riding at a high altitude, the return trip from Maligne Lake over the Sky Line Trail offers a new and exhilarating experience. **If snow conditions permit—this trip will be operated between July 10th and August 31st.**

First day — leave Jasper Park Lodge at 9:30 a.m., motor to Medicine Lake, take motor-boat across the lake and proceed by motor-car to Maligne Lake, arriving at 1:00 p.m.

Second day — rest at Maligne Lake Chalet and take scenic motor-boat trip to the upper end of Maligne Lake (34 miles return).

Third day — leave Maligne Lake Chalet at 9:00 a.m. with guide and saddle-horse, cross Maligne River via the saddle horse bridge, follow the Shovel Pass Trail over the Northeast shoulder of Bald Mountain to the Evelyn Creek ford and proceed up the long, easy slope to the summit of Little Shovel Pass at timber line. From the summit of Little Shovel Pass the rider gets a splendid view of the four miles of alpland, to be traversed before making the last climb to the summit of Big Shovel Pass (8,000 ft.). On the banks of a small mountain stream between the passes a stop is made for lunch. An easy descent across the shale slopes brings the rider to the overnight camp at Shovel Pass — a distance of 14 miles.

Fourth day — the route leads upward from Big Shovel Pass to the Skyline of the Maligne Range and for more than two miles maintains an altitude of eight thousand feet. The high altitude and peculiar location of the trail offers the rider in clear weather a magnificent view of the mountains in all directions. This is, beyond doubt, the most comprehensive panorama obtainable from a saddle. From the skyline a short, rapid descent is made to the basin at the rear of Tekarra Peak. After a short stop here for lunch, the rider continues around the east and north base to the top of Signal Mountain, which overlooks Jasper Park Lodge and the Athabaska Valley. The descent from Signal Mountain to the Lodge is made over the regular Signal Mountain Trail, a distance of 17 miles.

This is a four-day trip. Cost, including boat trip on Maligne Lake and Canvas House accommodation at Maligne Lake Chalet, \$105.00 per person; for cabin accommodation, \$109.00 per person. Minimum, 4 persons.

THE MALIGNE DISTRICT

The Maligne district is one of the most interesting in the Park, not only on account of its remarkable canyon as referred to on Page 27, but because of its two beautiful lakes — Medicine and Maligne. The drive to the latter, with boat trip to the head of the lake, provides unforgettable glimpses of the beauty and grandeur of a great mountain world.

Medicine Lake, about 15 miles distant from Jasper Park Lodge and reached by automobile, is five miles long and a little over half a mile wide. Leaving Medicine Lake the road follows the Maligne River, now a tumultuous greenish-white stream of considerable size. Almost ten miles south one catches the first exciting glimpse of the shining tops of the snow peaks surrounding Maligne Lake. On the latter, near the outlet to the river, stands Maligne Lake Chalet. Before the Chalet and extending in a south-easterly direction for seventeen miles, with a breadth varying from two hundred yards to two miles and a shore line of some fifty miles, lies Maligne Lake, the largest glacial-fed body of water in the Canadian Rockies.

The vista from the lower end of Maligne Lake makes up a charming alpine picture, but one must take the boat trip beyond the Narrows, nine miles from the chalet, where the upper part of the lake is revealed, to realize the full glory of this masterpiece, and to understand the praise it has drawn from all mountain lovers who have been fortunate enough to see it.

Beginning with Mount Samson (a jagged peak of ten thousand feet facing the Chalet on the left), the altitude of the peaks forming the Maligne group (Mounts Charlton, Unwin, Warren, Mary Vaux, and Maligne) gradually increases until, in Mount Brazeau, it reaches eleven thousand, three hundred and eighty feet.

The mountains rise precipitously from the lake and are heavily laden with snow and ice. At the south-west end of the lake, farthest from the Chalet, lies a snowfield of considerable size, and leading in a southerly direction towards the Brazeau River district, along the western base of Mount Brazeau, is a high, broad snow pass, affording easy access to this intensely interesting neighbourhood. The mountains in the Maligne Lake district are admirably suited to both ice and rock climbing, and many comparatively easy climbs can be successfully undertaken by the amateur.

The mountains, meadows, and flowers of the alplands will prove of great interest to botanist and naturalist alike. Sheep, goats, caribou, moose, and deer frequent these pastures. The Opal Hills, facing the Chalet on the east, are the home of the sheep and the goat, while the mountain sides overlooking the lake, particularly those about the southeast, are used extensively by the mountain goat as a summer pasture.

What to do at Maligne Lake

Ride or hike to Maligne Pass, to the top of the Opal Hills, or to the haunt of the caribou at the summit of Bald Mountain.

Take canoe, rowboat, or outboard motor-boat trips on the lake, also a scenic motor-boat trip to the upper end of Maligne Lake, 34 miles return.

Fish for speckled trout in Maligne Lake, Mona Lake, and Maligne River.

Arrangements can be made for summer skiing by applying to Fred Brewster's Rocky Mountain Camps Limited.

The angler who catches the heaviest speckled brook trout receives a gold lapel button, emblematic of the championship of the Maligne River Anglers' Club. The angler taking the second heaviest trout receives a silver button.

TONQUIN VALLEY

Among the many beauty spots in the Canadian Rockies, none is more outstanding than the Tonquin Valley and that splendid range of mountains which rises along the spiral ridge of the continent from Mount Fraser northward, on the western boundary of Jasper National Park.

Tonquin Valley lies verdant, wide and open, high up on the shoulders of the great ridge that forms the Divide at an elevation of 6,450 feet. Brilliant masses of wild flowers, the vivid greens of the coarse grass, and the dark velvety hue of pines, give the valley a smiling loveliness, which contrasts with and softens the unrelieved majesty of the black and jagged peaks. On every hand, too, are signs of wild life. Its waters are famous for splendid Rainbow trout fishing.

Near the southern end of the valley is a beautiful sheet of water three miles long and about a mile wide, divided by a rocky promontory into two parts, forming what are known as the Amethyst Lakes. Their waters are pale in color with amethyst shadows running from the sides, a color probably due to vegetation, accentuated when seen from a height, which has given them their names.

Forming a great arc from southwest to northwest, the Ramparts stretch along the western side of the valley without a sign of vegetation to relieve their rugged majesty. At all hours the Ramparts are impressive, but they are most splendid at sundown.

This beautiful valley is second to none in its interest to the angler, the alpinist, and the photographer.

The main trail to the Tonquin Valley is in from View Point, the latter being sixteen miles from Jasper on the Cavell motor road. The route is along the northern slopes of Mount Sorrow to Verdant Creek. Crossing the latter, it traverses the base of the northeast corner of Throne Mountain and, at a distance of some four miles from the highway, crosses the Astoria River. The trail then follows the northwestern bank of the Astoria for two and one-half miles before swinging to the right. After a very short climb to open country, it crosses the alplands to the Amethyst Lakes, a distance of three and one-half miles.

Transportation Schedule for Tonquin Valley Operates Every Third Day in July and August
