SYSTEM TIME TABLES

The Ocean Limited, All-Sleeping-Car Train between Montreal and Halifax, crossing the Richelieu River at Beloeil, Que.

THE BLUE FOLDER

SYSTEM TIME TABLES

The tables are numbered. To find train service to or from a station refer to the table numbers after that station in the alphabetical index, pages 71-79. When service between two stations appears in a through time-table, the same table number will appear in the index after each station. The maps, pages 40-43, will be found useful for locating the names of junctions if you are making a trip that requires a change of trains.

STANDARD TIME is used for all schedules in this time-table.

Time from 12.01 am (after midnight) until 12.00 noon is shown in light face type. Time from 12.01 pm (after noon) until 12.00 midnight is shown in heavy face type.

Stops are made at a station only if a time, letter or symbol appears in the schedule column opposite it.

A letter or symbol appearing with a train time indicates a restricted stop. All letters and symbols are explained under the caption "Reference Marks" appearing at or near the table in which the sign is used.

"Equipment" refers to the various cars which make up a train. When a train includes sleeping, parlor, or dining cars, the equipment is listed close to the train's time-table, or a note at the bottom of the page indicates where the listing can be found. Regularly assigned cars as shown in the equipment listings are Air-Conditioned unless noted NAC. All trains, except the Ocean Limited, carry coaches.

Along 24,000 miles of railway, changes in train service may become necessary between the publication of one time-table and the appearance of the next, therefore, time-tables herein are subject to change without notice.
