CANADIAN
ROCKIES

HERE'S something about mountains!

Merely to be among them, on the tops looking down or—as it is with most people—in the valleys looking up, is a tonic for body and soul. You are carried along on the rhythm of their rolling slopes, lifted up with their soaring summits; the snow and ice and the shining lakes are eternally refreshing; the rivers and the cataracts driving impetuously to the sea quicken your pulse, and the air is like wine.

“Great things are done when men and mountains meet!” exclaimed the poet William Blake. “This is not done while jostling in the street.”

In the mountains you are stimulated to do great things—to climb the highest peaks, to ride horseback or hike for miles, to get a better golf score, catch a bigger fish, take photographs you never dreamed of taking. Free of the humdrum workaday world, you get a second wind, a new lease on life.

But you don't have to be as energetic as all that! You can be invigorated and restored without working too hard at it. The mountains for you may be a simmering down. Like the gentleman in the definition of Confucius, you can be calm and spacious.

In Jasper National Park great things have been done for you and all you have to do is enjoy them. The text and photographs in the following pages can give you only a few of the highlights of this great playground in the northern Canadian Rockies. Your Canadian National agent will tell you more.

Planned for Pleasure . . .

Headquarters for vacations long remembered is Jasper Park Lodge, the famous resort hotel operated by the Canadian National Railways. Here, for more than thirty years, visitors have been coming for rest and recreation, many of them returning summer after summer, as much at home as the bluebirds whose azure wings flash among the pines.

The Lodge is not an hotel in the ordinary sense of the word. There is nothing ordinary about Jasper. Instead of one building, it is a whole village, a self-contained community of more than a thousand inhabitants, built on the landscaped shore of an entrancing mountain lake, three miles from the railway station. The ordinary things everybody expects of a modern hotel are here, but they are tuned up to the holiday mood. Every detail of the

Lodge's complex but smooth-running organization, from the unseen sources of power to the flowers on the dining room tables, is geared for the comfort and pleasure of honored guests.

The heart of the system is the new Central Building, acclaimed by travellers as a marvel of 20th century resort architecture. Its struc-

ture, over a frame of steel and concrete, is native fieldstone and cedar, in keeping with the mountains to which it belongs and with the log bungalows gathered around it between the lake and the golf course. It provides shelter and even carpeted luxury, but the great outdoors—its reason for being—is not shut out.

Wide windows frame enchanting pictures of lake and mountains.

More than 500 guests are served at a single sitting in the large yet gracious dining room.

A view of the lounge, showing the unusual architectural treatment of the ceiling.

Wide windows running the full length of the dining room let it in on the lake side and the mountains are kept in mind by the gracefully soaring stone pillars supporting the angled ceiling. All things work together for enjoyment—the airy room . . . the meals, so fresh and expertly cooked, so varied . . . the table appointments . . . the prompt and courteous service . . . the dinner music.

The focus of the lounge, which opens on a long verandah under wide eaves overlooking the lake, is the immense double stone fireplace. The room is large and spacious but the guests don't feel exposed and minimized. The furniture, made for relaxation, is grouped in blocks of color in such a way as to give the impression of smaller, separate clubrooms, comfortable for conversation or a game of cards, for reading or writing letters.

The ballroom, reached through the lounge, is designed for meetings and movies as well as dancing and, by the

use of a folding partition, it may be extended for large conventions. Doors open on the patio, which leads to the snack bar, also accessible from outside the building. The self-contained tavern has its own entrance on the lakefront.

Under the roof of the Central Building is the business wing. Here are housed the

registration desk and the hotel offices, the railway and the telegraph offices; and the news stand and the specialty shops are handy. The post office, a branch bank, the beauty parlor and the barber shop, and the recreation room, are on the lower level. The vast and spotless kitchens, with their up-to-date stoves, refrigerators and other equipment, occupy their own wing at the rear.

The terrace, looking over the gardens and the swimming pool to the lake.

Without standing oppressively close, the mountains are all around the Lodge—across the shimmering water of Lac Beauvert, the rolling Whistlers, leading, by way of Indian Ridge, to majestic Edith Cavell, girdled and crowned with everlasting snow and ice; in another direction, the polished bosses of

Pyramid and, across the valley, the spare grey Colin Range, with the Good Old Man whose eternal slumber was no more disturbed by the coming of the railway than it was by the passing of the fur traders generations ago; at his feet, Signal, and then the ring of other peaks that closes with Cavell.

The patio, at the heart of the Central Building, is open to the sky.

A Home of your own . . .

There are no guest rooms in the Central Building of Jasper Park Lodge. You stay in a log cabin on one of the streets that curve around the bay. Every street is paved and every house has its garden. It would be true to say, indeed, that the residential section of the Lodge is one continuous garden. The cedar, spruce and pine of the mountains have been left, or transplanted, immaculately groomed lawns have been laid down and flower beds that are the pride of the gardener and the delight, not only of the guests, but of the deer, who have dainty appetites and who feel that they have a perfect right to munch the flowers, since they, after all are the original inhabitants.

The cabins come in various sizes, some with as many as 16 single rooms, some with only four. You may have half a cabin, for example, with two rooms and connecting bathroom, your own private entrance and verandah sitting room, or you may have a whole house to yourself.

The buildings are constructed of peeled logs. They are soundly built, weather-proof and equipped with all the refinements fastidious guests expect—steam heating for the cool mountain nights, hot water, electricity, telephones. The beds are comfortable and the furnishings—drapes, counterpanes, rugs, lamps, dressing tables, desks and so on—are fresh and modern.

Championship Course . . .

The golf course at Jasper Park Lodge, designed by one of the most celebrated golf architects of North America, hewn out of the mountains and brought to perfection by the grooming of a quarter of a century, is rightly known as one of the great courses of the world.

It is a championship course—6,700 yards, par 71—and Golf Week, culminating in the Totem Pole Tournament, attracts high calibre players, both men and women, every year. But duffers needn't be over-awed. Whatever your handicap, there's top fun on this course.

The hazards include the beautiful mountain terrain, which makes it hard to keep your eye on the ball, and sometimes a bear unconcernedly ambling over the fairway, but they do not include strenuous climbs.

The course is laid out on the British principle, with the ninth hole farthest away from the clubhouse, but an additional three holes permit a nine-hole game, taking you back to the clubhouse with no cutting in.

The 21 holes are well trapped and Lac Beauvert provides sporty water hazards.

Keep your eye on the ball . . . if you can!

Lake Trout

Fun for Fishermen . . .

A few miles from the Lodge, on the lower Maligne River, the Government Fish Hatchery breeds the trout with which the mountain waters are stocked. Hundreds of thousands of eggs are hatched every year and developed into fingerlings which are then put into the Park's lakes and streams.

Maligne Lake and River, Amethyst Lake and the Astoria in the Tonquin Valley, Jacques Lake, Medicine, Beaver, Wabasso and other lakes and brooks—there's hardly a stretch of water anywhere in Jasper that won't prove rewarding to a well-cast fly. They are well pro-

vided with Rainbow, Dolly Varden, Lake, Speckled and Eastern Brook trout, sporty fish that lure anglers hundreds of miles every year.

It is easy to get to the fishing places. Sometimes you have the added pleasure of a short camping trip by horseback. Boats and guides are available and the licence costs you only a dollar, good for two months.

A good souvenir of Jasper is the gold button for catching the season's heaviest trout at Maligne. But the silver and the bronze are worth having too, and the fun's in the fishing, anyway.

Stream fishing doesn't come any better than here, where the Maligne River enters the Athabaska.

The Lodge's heated outdoor pool.

Fun for Everyone . . .

Jasper is designed for guests of all ages, from the youngsters who like the strenuous life to the oldsters, who are satisfied to sit. There is plenty to do and plenty to look at. Some people like to see the mountains from a pony's back, some from a car; some come to fish and some live at the golf course; some take the mountains the hard way, climbing from an alpinist's camp or on their own, for the pleasure of looking down, while others are convinced that the peaks look better from the bottom. There is tennis on four hard-surfaced courts, canoeing on the lake, swimming in the heated pool.

Sightseeing by motor car is one of the most popular pastimes in Jasper. Some of the drives take a couple of hours, others take all day. The big trips, referred to elsewhere in this folder, are to the Columbia Icefield and Maligne Lake. Everybody goes up the thrilling switch-back to the base of Mount Edith Cavell and the Angel Glacier. In the 22 miles, the buses and cars climb up half a mile from the valley. Maligne Canyon, in which the tumultuous river drops from level to level, cutting deep into the rock, is another favorite trip. Details of these, the drives to Miette Hot Springs, the Fish Hatchery and others may be found on page 31.

Dividends in December . . .

To eat your cake and have it is one of mankind's most frustrating problems. The camera helps solve it. Bring your camera to Jasper—movie or still, precious lens with all the gadgets, or simple box—black and white or color—stop the joyous moment in its tracks, take it home with you, and keep it forever!

The green slopes, the rugged rock, the play of light and shadow as the clouds boil up over the ridges and sail across the sky, the glint of ice and the glimmer of new-fallen snow, the color of the lakes, the clear reflections, the animals—the timid but trusting deer and the clownish bears that come calling at the Lodge, and the wilder denizens—the wading moose and the dainty stepping sheep and goats . . . you and your friends enjoying the mountains . . . keep them all! You can have the summer all over again, your vacation will pay dividends in the winter months, if you bring your camera.

Snowmobiles take you on one of the world's most unusual drives.

The Athabasca Falls, a superb milepost on the highway.

Buses and cars from The Lodge make daily trips to the Icefield.

Seeing is Believing . . .

Without question, one of the scenic wonders of the Western World is the Columbia Icefield. Statistics are impressive. Covering more than 110 square miles, it is the largest body of ice outside the Arctic Circle. Its loftiest summits tower 11,000 and 12,000 feet above sea level. Out of its maze of glaciers trickle streams that swell into mighty rivers carrying fertility to a vast terrain and journeying thousands of miles to three oceans—the Pacific, the Atlantic and the Arctic. But facts like this convey nothing of the splendor of the Icefield. Seeing is believing, and seeing is remembering for a lifetime.

The motor trip from Jasper Park Lodge to the chalet at the foot of the great Athabaska

Glacier—where you have lunch—is a thrill in itself. Every mile of the 75 brings new revelations of massive crags and ridges and rivers of ice, splendid waterfalls and tremendous panoramas over deep-cut valleys. The smaller things of the mountains are there for your pleasure, too, as you stop at a viewpoint—wild flowers, squirrels coming to be fed, whiskeyjacks minding your business, goats scrambling down the steep shale slopes on trim black hooves, a nimbus of light around their white wool . . .

And as a climax, a trip by gaily colored snowmobile, three miles over the living ice of the Athabaska.

Maligne Lake Chalet, where fishermen and other over-night guests have comfortable quarters and meals to write home about.

What's in a Name...?

The Indians knew it as Chaba Imne—Great Beaver Lake—which sounds much more impressive than the name given it by the first white man to look upon it, a railway engineer who, eighty years ago, called it Sorefoot Lake. Fortunately that didn't register, but the name that did—Maligne Lake—is hardly more worthy. It, too, comes from the all-too-human concern with the comforts and conveniences of travel rather than the awe of majestic beauty, and was first applied to a treacherous ford in the river.

Few people give it a thought now. The old meaning is forgotten and the name Maligne has gone into the language as the symbol of one of the grandest alpine spectacles in the world. And its dignity has been enhanced by the name bestowed on the chain of mountains that surrounds it—the Queen Elizabeth Ranges.

These peaks, towering a mile above the mile-high lake, rise sheer out of the water and the best way to see them is from a boat. Not until you pass the Narrows do they begin to reveal themselves in all their splendor, as hidden glaciers come into view and the walls divide into the wings of colossal palaces.

Getting to Maligne is no hardship nowadays. You can go there and back in a day, travelling by motor and launch. And if you want to stay longer, to fish or because you can't tear yourself away from the beauty and quietness, there is a chalet for your comfort.

Maligne Lake is 17 miles long and the launch trip to its far end is a "must" for all who admire mountains.

On four Feet . . .

Back home, in the cities, the motor car has put the horse out of business, but he still holds his own in the mountains and, while you can go most places on wheels, trail riding is the only way in, over thrilling mountain passes, to some of the valleys. Many of the guests at Jasper Park Lodge would rather ride than play golf and some manage to do both. Hundreds of miles are open to you—secluded forest pathways carpeted with fragrant pine needles, tracks up steep defiles, the Skyline Trail in the high altitudes, the broad Sawdust Trail along the Athabaska and up to the Pyramid benches—and you may ride for an hour or two or, with pack train and camping equipment, go on expeditions that last for days or weeks. One of

the most popular trail trips is into the Tonquin Valley from the Edith Cavell motor road to the camp at the Amethyst Lakes, noted for trout fishing. A shorter one is to Maligne Canyon and along the turbulent Maligne River, and if you have only a couple of hours and just want to get limbered up you couldn't do better than Old Fort Point, which gives you a wonderful view of the Athabaska Valley, with the town and the Lodge and the mountains all around.

Mount Robson, Monarch of the Rockies, 12,972 feet.

Tops them all...

Adjoining Jasper National Park to the west, two train hours away, in the neighboring province of British Columbia, towers the loftiest and grandest peak in the Canadian Rockies—Mount Robson. Armored in eternal ice and snow, it is a glorious sight from Canadian National trains on the way to either Vancouver or Prince Rupert or going east from the Pacific.

But it is even more majestic from close range and a lot of travellers stop over at Mount Robson to ride on horseback through the Valley of a Thousand Falls, past roaring

Emperor Falls and around the massive mountain to Berg Lake on the north side. Here they are thrilled by the spectacle of three immense glaciers clinging to Robson's flanks and blocks of ice shattering the shining mirror of the lake and turning into icebergs.

Some of the visitors go as hunters, for Mount Robson Provincial Park is the centre of top-notch big game hunting. Accommodations are good and the guides, who know the territory as well as the palms of their hands, see that you get sport at its best.

SIGHTSEEING MOTOR DRIVES

NOTE:—Starting point of all sightseeing drives—Main Entrance, Jasper Park Lodge.

The Station Agent at Jasper will make arrangements for railway patrons, who are not guests of the Lodge, to be taken from the station in Jasper Park Lodge motor equipment on any of the scheduled drives, Nos. 1 to 8 inclusive. Regular rates will apply.

Departure hours and schedules for these drives have been carefully planned to permit visitors to view without haste the scenic wonders of the Park.

No. 1: General Drive—Thirty-five miles return. Motors leave the Lodge at 9:15 a.m. and 2:30 p.m. Time, approximately 3 hrs. Bus fare per person, \$4.00. This drive embraces a wide variety of valley, lake, canyon and mountain scenery and includes a visit to the Fish Hatchery and a side trip to see the bears. The route, after following the Athabaska River, skirts Lakes Annette and Edith before gradually ascending the roadway to Maligne Canyon. From this vantage point the tourist stands in awe before the snow-capped grandeur of lordly mountains and the mighty sweep of the Athabaska Valley, which loses itself in endless vistas of alpine beauty. Maligne Canyon, a tremendous gorge descending to a depth of 188 feet, and remarkable for its potholes, is a never-ending source of wonder and amazement. On the return journey the Athabaska River is followed to its junction with the Maligne River, where a stop is made to view the Government Fish Hatchery; from here the route continues over the Athabaska River bridge to join the Main Highway to Jasper, where a glimpse is obtained of "the Raven," one of the largest totem poles in existence. Continuing along to the foot of Pyramid Mountain and passing en route Lakes Patricia and Pyramid, the drive again runs through Jasper before terminating at the Lodge.

No. 2: Glacier of the Angel (Mount Edith Cavell)—Forty-four miles return. Motors leave the Lodge at 9:15 a.m. and 2:30 p.m. Time, approximately 3 hours. Bus fare per person, \$4.00. Offering excellent motoring, this drive by a course of wide-sweeping switchbacks reaches an altitude of nearly 2,000 feet above the floor of the valley and gives the tourist an ever-changing series of strikingly beautiful panoramas. The highway, terminating at the foot of the famous glacier, affords an excellent view of this vast field of living ice. The highest point reached on this drive is 6,300 feet above sea level. Light lunches and refreshments can be obtained at the Tea Room near the foot of the Glacier.

No. 3: Miette Hot Springs and Fiddle River Canyon—Eighty miles return. Motors leave the Lodge at 8:45 a.m. Time, approximately 4 hours. Bus fare per person, \$6.00. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls. A short stop is made to view this unique waterfall and then the trip continues along the rim of the Fiddle River Canyon for another eleven miles before finally reaching the famous Miette Hot Springs. At this point, hot sulphur spring water, varying in temperature from 79 to 128 degrees F., comes boiling out of the mountain side. Motors will remain long enough to permit bathing in the pool. The highest point on this drive is 4,510 feet above sea level.

The Miette Hot Springs consist of three main springs, which issue from the rocks along the banks of Sulphur Creek. The springs, non-volcanic in nature, owe their heat to chemical action, caused by surface water coming in contact with certain minerals in the limestone

rock formation. The combined flow of the three springs reaches a total of approximately 170,000 gallons every 24 hours.

The Swimming Pool and the Steam Baths at Miette Hot Springs are operated by the National Parks Department.

The rates are:

Swimming pool—when bathing suit and towel are supplied by the Department: adults, 35c.; children, 25c. When bathing suit and towel are supplied by bather: adults, 25c.; children, 15c. Steam and Plunge Baths—50c. per person.

No. 4: Columbia Icefield (Jasper-Banff Highway)—One hundred and fifty miles return. Motors leave the Lodge at 9:00 a.m. Time, approximately 7 hours. Bus fare per person, \$10.00. Minimum, 5 persons. The drive follows the route of the Mount Edith Cavell Drive to a point beyond the crossing of the Astoria River, whence it continues along the valley of the Athabaska. From here the route penetrates through the very heart of the Canadian Rockies to the largest and most impressive icefield outside the Arctic Circle. With an estimated area of 110 square miles, the average elevation of this amazing icefield is between 9,000 and 10,000 feet, which, because the waters of its melting glaciers travel thousands of miles to three oceans, the Atlantic, the Pacific and the Arctic, has been beautifully named "Mother of Rivers." Unquestionably, this is America's Greatest Scenic Drive.

The highest point reached on this drive is 7,000 feet above sea level.

This trip is also operated as an afternoon and evening drive, leaving the Lodge at 2:30 p.m. It is arranged for those who wish to see the wild animals which in the evening twilight come down from the mountains and forests to the rivers and streams along the route of this great highway.

No. 6: Maligne Canyon—Medicine Lake (auto-motor boat)—40 miles return. Motors leave the Lodge at 1:30 p.m. Time, approximately 4½ hours. Cost per person, \$6.50. The route is over the road to Maligne Canyon and beyond for fourteen miles to the lower end of Medicine Lake; at this point passengers are taken on a scenic motor-boat cruise across the lake. A unique feature of this lake is that, although thirty feet deep during the summer, it completely disappears through invisible outlets in the fall of the year.

No. 7: Maligne Canyon—Twelve miles return. Motors leave the Lodge at 10:00 a.m. and 2:30 p.m. Time, approximately 1½ hours. Bus fare per person, \$2.00. This canyon, into which the Maligne River plunges through a gorge 188 feet deep, ranks among the most extraordinary in the Canadian Rockies. The route lies over a gradually ascending roadway from which the tourist obtains magnificent views of lordly mountains and charming vistas of the Athabaska Valley. The Fish Hatchery on the lower Maligne River beyond Lake Edith is also of interest.

No. 8: Punch Bowl Falls—"A Twilight Drive"—Sixty miles return. Motors leave the Lodge at 7:00 p.m. Time, approximately 3 hours. Cost per person \$3.50. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls and Valley.

THE MALIGNE DISTRICT

Official Outfitters—Fred Brewster's Rocky Mountain Camps Limited
Office—Jasper Park Lodge

In advertising the following services the Canadian National Railways act only in the capacity of agents; therefore, while highly recommending the outfitters to guests, they do not assume any legal responsibility whatsoever relative to the services provided.

There is no more fascinating section of the Canadian Rockies than the Maligne area which lies southeast of Jasper.

Maligne Lake itself, the largest glacial lake in the Rockies, a mile above sea level and surrounded by ice-crowned mountain peaks towering another mile into the sky, is one of the greatest scenic wonders of North America. It is 17 miles long, with 50 miles of shoreline, and although the view from the chalet, at the lower end near the outlet to the river, is impressive, the full splendor of the lake does not reveal itself until you take the boat trip beyond the Narrows, 11 miles out. You will never pack more wonder into three hours.

It is a glorious company of peaks that rises straight up from the water. Most of the mountains in the Queen Elizabeth Ranges reach an altitude of more than 10,000 feet—Sampson, Maligne, Warren on the east, Unwin, Charlton, Llysyfran and Mary Vaux on the west—and Brazeau, at the far end, tops 11,000.

As your motor boat pushes out into the lake, more and more beauty and majesty unfold. The mountains become more massive, disclosing unexpected bays and chasms, waterfalls and icefalls, wide glaciers and snowfields of dazzling white. Ridges sharp-edged against the sky, too steep-pitched to hold vegetation, are contrasted with rolling slopes rich in green forests.

It is all as fresh and unspoiled as it was in the first days of creation. And yet there is a place here for man. He may feel like tiptoeing in awe, yet he comes here to enjoy himself. The mountains of the Maligne district, the Opal Hills facing the chalet on the east, Bald Mountain, the meadows and the aplands, are full of treasure for the trail rider, the climber and the hiker, the botanist and the student of animal life. The big game hunter—with the camera—is sure of a full bag of mountain sheep, goats, moose, deer and caribou.

Much of the enjoyment of holidays in the mountains depends on good food and a good bed. At Maligne Lake Chalet you get both. When you come indoors, you are welcomed by an open fire in the comfortable lounge, and when you sit down at the table—. Well, it wouldn't be true to say that when you go home you'll talk as much about the meals as you do about the lake and the mountains, but almost!

Arrangements may be made for summer skiing by applying to Fred Brewster's Rocky Mountain Camps Limited.

WHERE THE FISH REALLY ARE

"The only lake in the world with nothing in it but trout!" is the way one angler describes Maligne. He comes 3,000 miles just to fish for the fighters in these sparkling mountain waters and everybody agrees with him that they are "terrifically lively!"

Nor is Maligne Lake all. Only a step from the chalet in the Maligne River, is one of the finest casting pools in Canada, all the more attractive because it is clear of trees. There is fishing, too, in Lorraine Lake, a mile and a quarter up the Shovel Pass Trail, and in Mona Lake, two miles from the chalet.

Without additional expense, fishermen in these parts qualify for membership in the Maligne River Anglers' Club by catching a speckled trout weighing not less than a pound. They receive a bronze button. The member who catches the heaviest trout of the season is awarded the gold button, emblematic of the Club Championship, and the runner-up gets a silver button. A regulation fly rod weighing not more than six ounces must be used.

MOTOR AND BOAT TRIPS

A few years ago, the only way to get into Maligne was by horseback riding or hiking. Now the lake is reached by motor car on the highway to Medicine Lake, 15 miles from Jasper Park Lodge. Medicine Lake is crossed by motor boat, a trip of five miles. Maligne is 12 miles farther on, the road following the tumultuous Maligne River through the forest and across the mountain meadows. Before long, the travellers get their first exciting glimpse of the snow crowns of the Queen Elizabeth Ranges encircling the great lake.

One day trip. Leave Jasper Park Lodge at 9:00 a.m., motor to Medicine Lake, take motor boat across the lake and proceed by motor to Maligne Lake, arriving at 11:30. The return journey is over the same route, leaving Maligne Lake Chalet at 4:00 p.m. and arriving at Jasper Park Lodge at 6:30. This trip from the Lodge to the far end of Maligne Lake—100 miles return—includes transportation, luncheon and afternoon tea at Maligne Lake Chalet, and scenic motor boat trip on Maligne Lake. Cost: \$24.00 per person.

Overnight trip. Leave Jasper Park Lodge at 9:00 a.m., arriving at 11:30 a.m. The return journey leaves Maligne Lake Chalet the next afternoon at 4:00, arriving at Jasper Park Lodge at 6:30. Cost of transportation, one night's accommodation, four meals at Maligne Lake Chalet, and scenic motor boat trip on Maligne Lake: \$35.00 per person in canvas houses, and \$37.00 per person in cabins.

Special two night visit. Leave Jasper Park Lodge at 4:00 p.m., arriving at 6:30. One full day at Maligne Lake with morning scenic motor boat trip. The return journey leaves Maligne Lake Chalet at 9:00 a.m., arriving at Jasper Park Lodge at 11:30. Cost for transportation, two nights' accommodation, five meals at Maligne Lake Chalet, and scenic motor boat trip on Maligne Lake: \$37.50 per person in canvas houses, and \$41.00 per person in the cabins.

An additional charge will be made for trips at other than regular times.

It comprises a central building 25' x 40', containing a living room with big, open fireplace, a dining room with a seating capacity of 30 persons, and a well equipped kitchen. TONQUIN VALLEY

One of the most outstanding beauty spots in the Canadian Rockies is the Tonquin Valley and the splendid range of mountains, the Ramparts, rising along the spinal ridge of the continent from Mount Fraser northward, on the western boundary of Jasper National Park where it adjoins Mount Robson Provincial Park in British Columbia.

Tonquin Valley lies verdant, wide and open, high up on the shoulders of the Divide at an elevation of 6,450 feet. Its shining waters, the vivid green of its coarse grasses, the darker greens of the pines and the brilliance of its wildflowers, contrasting with the stark black majesty of the sky-piercing peaks, make this beautiful valley a picture long to be remembered.

Near the southern end of the valley lies a beautiful sheet of water, three miles long and about a mile wide, divided by a rocky promontory into two parts, and known as the Amethyst Lakes. The name comes from the tint of the water near the shore, probably caused by vegetation. But whatever causes it, the lakes are sheer enchantment, especially when seen from a height.

And for fishermen, looking for the sport of fighting rainbows, it has still more magic.

To get into the Tonquin, you go by automobile more than half way, then on horseback or on foot. Sixteen miles from Jasper on the road to Mount Edith Cavell bring you to View Point. The trail in from there, ten miles to the chalet, is along the northern slope of Mount Sorrow, looking across the Astoria Valley to Mount Franchere and forward to Old Horn and the radiant Throne. After crossing Verdant Creek, the trail traverses the base of the Throne, crosses the Astoria, follows this river for two and a half miles and then, after a short climb to open country, crosses the alplands to the Amethyst Lakes. Total distance from Jasper, 26 miles.

TRANSPORTATION SCHEDULE

Operates every third day from July 1 to August 26 if snow permits.
