POT OF COFFEE

# A New Accent on Travel Comfort

➡ Beds disappear in daytime and are replaced by comfortable armchairs in CNR's stylish new bedrooms. A folding partition permits the combining of two rooms to form one big suite if desired.

➡ A Canadian National drawing room provides the ultimate in travel luxury. A living room by day, it provides sleeping space for a small family in its 3 beds at night.

Your travel comfort is of prime importance to Canadian National. For that reason, only skilled craftsmen build the fixtures and furnishings in CNR coaches, sleeping cars, dining cars, dinettes and buffet lounge cars. Some of these fixtures are quite apparent; like the wide picture windows, reclining seats and air-conditioning units. Others — like roller bearing wheels, soundproofing and special springing — are not so obvious. Yet each is installed with just one thought in mind . . . that you have a pleasant trip.

**CANADIAN NATIONAL**  
*Serves all Canada*
