A New Accent on Travel Comfort

← Beds disappear in daytime and are replaced by comfortable armchairs in CNR's stylish new bedrooms. A folding partition permits the combining of two rooms to form one big suite if desired.

A compartment is an ideal way for two or more people to travel. At night the sofa converts to a bed and an upper berth swings out of the wall. →

New standards of style and comfort have been established on our principal trains everywhere in Canada as a result of CNR's main-line modernization program, largest of its kind in Canadian railway history. Our new passenger cars are tops in travel-living. All of them — coaches, sleeping cars, dining room cars, dinettes, parlor cars and lounges — have wide picture windows, roller bearing wheels, soundproofing, special snubbing and springing. There are many other features, too, designed for your comfort and enjoyment. They offer a wide choice of accommodations for every travel budget.
