Banff

In Rocky Mountain Park

BANFF, administrative headquarters of Rocky Mountains Park, can be said to be one of the "scenic best sellers" of America. No part of the Rockies exhibits a greater variety of sublime and romantic scenery, and nowhere else are good points of view and features of special interest so accessible. Rocky Mountains Park has an area of 2751 square miles, its greatest length being about one hundred miles.

The town lies embowered in pine forests and lawns, in a pocket of a wide circle of pearly-grey limestone peaks. Warmed by clear sunshine, kissed by clear air, exhilarated by the glacial-green Bow River that frisks through its middle, Banff bids all welcome.

Mountain climbing, hot springs, swimming, golf, tennis, boating, hiking, riding, motoring and fishing are some of the attractions that have made Banff so popular a vacation resort. Banff Springs Hotel—a Canadian Pacific hotel—is the social centre for the large summer population.
