CANADIAN PACIFIC

The Expression of a Nation's Character

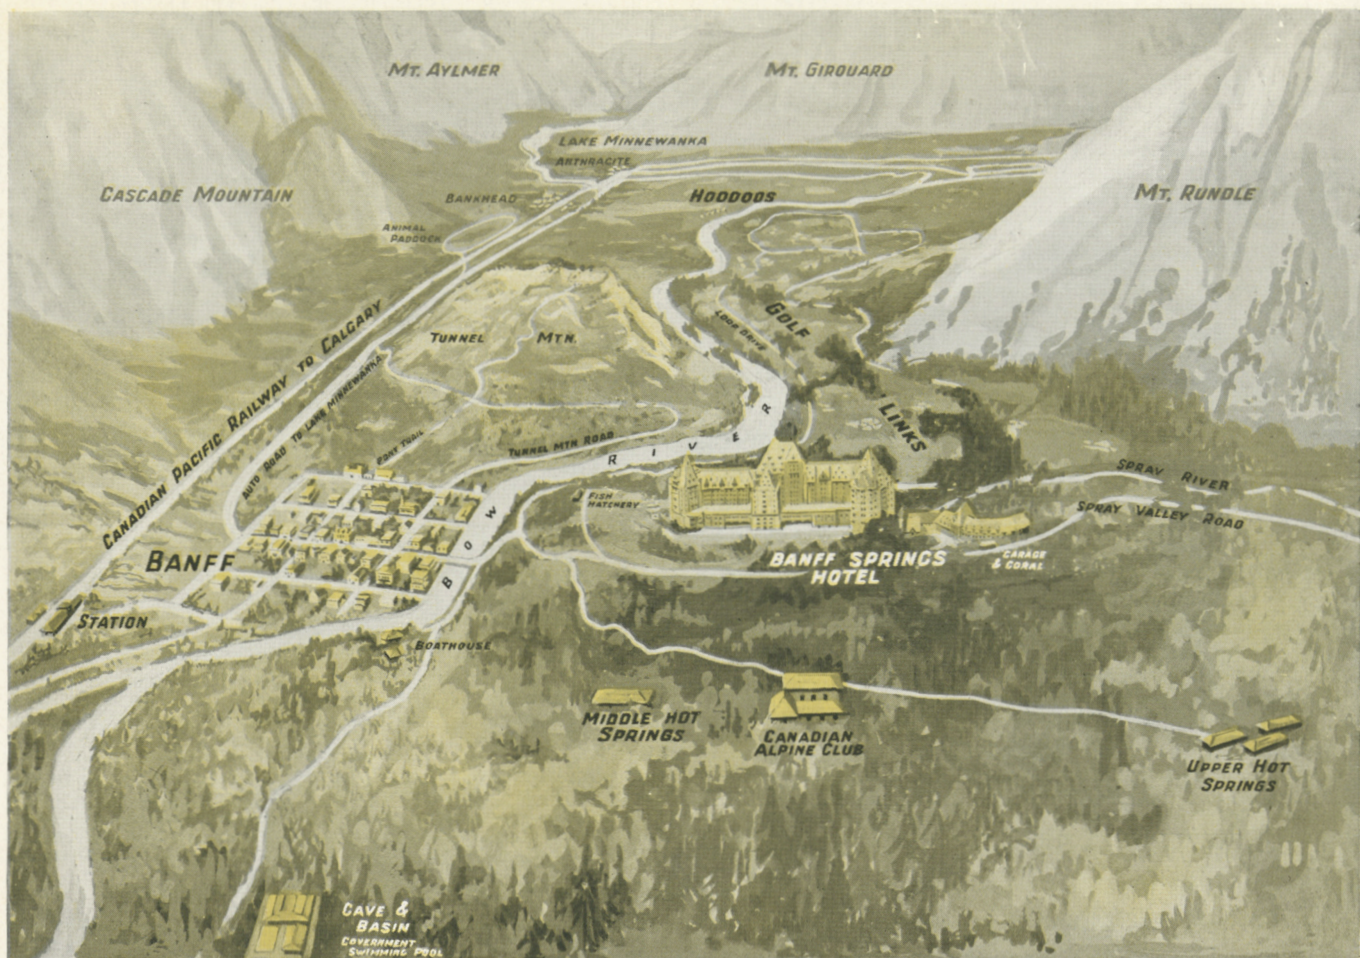

WORLDWIDE in scope, international in activities, the Canadian Pacific is pre-eminently the expression of a progressive nation's character.

Canadian Pacific rails extend from the Atlantic to the Pacific Ocean, webbing prairies and mountains, reaching out to cities, farms, forests, ranches and mines scattered over a million square miles.

Stupendous record in steel of the daring and genius of a young people who fifty years ago dreamed of transforming a virgin wilderness into a nation—and made their dream come true.

Canadian Pacific Steamships, on all the seven seas—Canadian Pacific Telegraphs, carrying messages to world's end and back—Canadian Pacific Express, trusted bearer of goods to the farthest places, with money-orders of worldwide currency—Canadian Pacific Hotels, with guests from all the continents.

Gigantic symbol of the vision, enterprise and spirit of the people of Canada.

BANFF

Banff, administrative centre of Rocky Mountains National Park, is just a wee town tucked away in the high-up valley of the Bow River where it winds like a thread of silver between the towering peaks of the Canadian Rockies, 82 miles west of Calgary.

Banff has no great population to boast of, no feverish commercial activities. But... as compensation... bluest

of blue skies... Indians in the glory of tribal panoply... the white tumult of plunging waters... the scurrying flight of deer... alpine meadows... majestic peaks... swaggering cowboys... sunshine... fairy-green slopes... staccato of galloping hoofs... springs of magic warmth... calm. No resort anywhere offers a more varied and alluring appeal.

The CLIMATE

Banff enjoys an unusually mild and agreeable climate, due to the encircling wall of mountains which surround it on all sides. Summertime is marked by days of sparkling sunshine and nights of a comfortable coolness ideal for sleeping, and rains seldom come to interfere with the outdoor activities which play so prominent a part in

Banff's attractiveness. Wintertime, while cold enough to keep snow and ice satisfactorily firm, is rarely so cold as to be uncomfortable. Banff's rapidly growing reputation as a winter resort is built in large measure upon the favorable nature of its climate. Each February a carnival of spectacular interest is held there.

POINTS of INTEREST

Banff is a veritable treasure-house of the unusual, the beautiful, the inspiring. Close by are the Bow River Falls; the meeting of the Spray and Bow Rivers; the natural Cave and Basin; the Museum, the Zoo with its grizzlies, cougars, lynx and other wild animals native to the surrounding country; the immense fenced-in animal corral where herds of buffaloes, mountain sheep, mountain goats, moose and elk roam in natural freedom; the Government Recreation Grounds; the narrow cleft in the mountains that is Sundance Canyon; Upper and Middle Hot Springs; the Observatory atop Sulphur Mountain; the steel-blue waters of Lake Minnewanka,

and Johnson Canyon. Lake Louise, iridescent gem of the Canadian Rockies, the Great Divide, Marble Canyon, Stoney, Sawback and Mystic Lakes, Mount Assiniboine, and a thousand other scenic marvels are within reasonable distance by motor car or pony trail.

PONY TRIPS

Trips by saddle pony over the mountain trails are among the most popular diversions at this celebrated resort. Well-trained and sure-footed ponies can be hired by the hour, half-day or day at moderate rates. Reliable and experienced guides may be engaged for special trips of any distance.

MOTORING

Banff is situated along the main motor route through the heart of the Canadian Rockies and is a starting point for an almost endless variety of delightful sight-seeing trips. By covering the Banff-Windermere Road and the Banff-Lake Louise-Kicking Horse Road to Golden with a detour to the Yoho Valley and Emerald Lake the motorist is enabled to view some of the most magnificent and inspiring scenery to be found in this land of scenic marvels. Sightseeing auto-busses operated on regular schedules and private motor cars are available for both long and short trips.

HIKING AND MOUNTAIN CLIMBING

Any number of trails radiating in all directions from Banff offer inviting possibilities for the hiker, while for those who enjoy mountain climbing, some fine ascents can be made in the vicinity, most of which are not of a difficult character.

MUSIC AND DANCING

There is dancing to the music of an excellent orchestra each weekday evening in the ball room at Banff Springs Hotel. Concerts every evening and Nature Study talks frequently.

BOATING

Canoes, skiffs and motor boats can be rented at reasonable rates from the local boat livery. Sightseeing trips by launch daily on the Bow River and Vermilion Lakes and on Lake Minnewanka.

The lakes and streams in the neighborhood of Banff are well worth the attention of angling enthusiasts. Lake trout of large size are found in Lake Minnewanka while other waters contain principally Cut Throat and Dolly Varden trout. The Spray River, Spray Lakes, Forty Mile Creek, Mystic Lake, the Sawback Lakes, Vista Lake and Boom Lake, might be mentioned as offering special fishing inducements. Most of these places are reached by pony trail from Banff where guides and equipment can be secured. Reliable information and advice can be obtained from local Government Fishing Inspector.

Although it is situated in Rocky Mountains Park in which hunting is strictly prohibited, outside the Park boundaries grizzly, cinnamon and black bear, mountain sheep and goat, moose, caribou and cougar afford splendid sporting possibilities. In certain sections elk (or wapiti) may also be hunted with good prospects of success. Local guides and outfitters can look after all requirements of hunting parties.

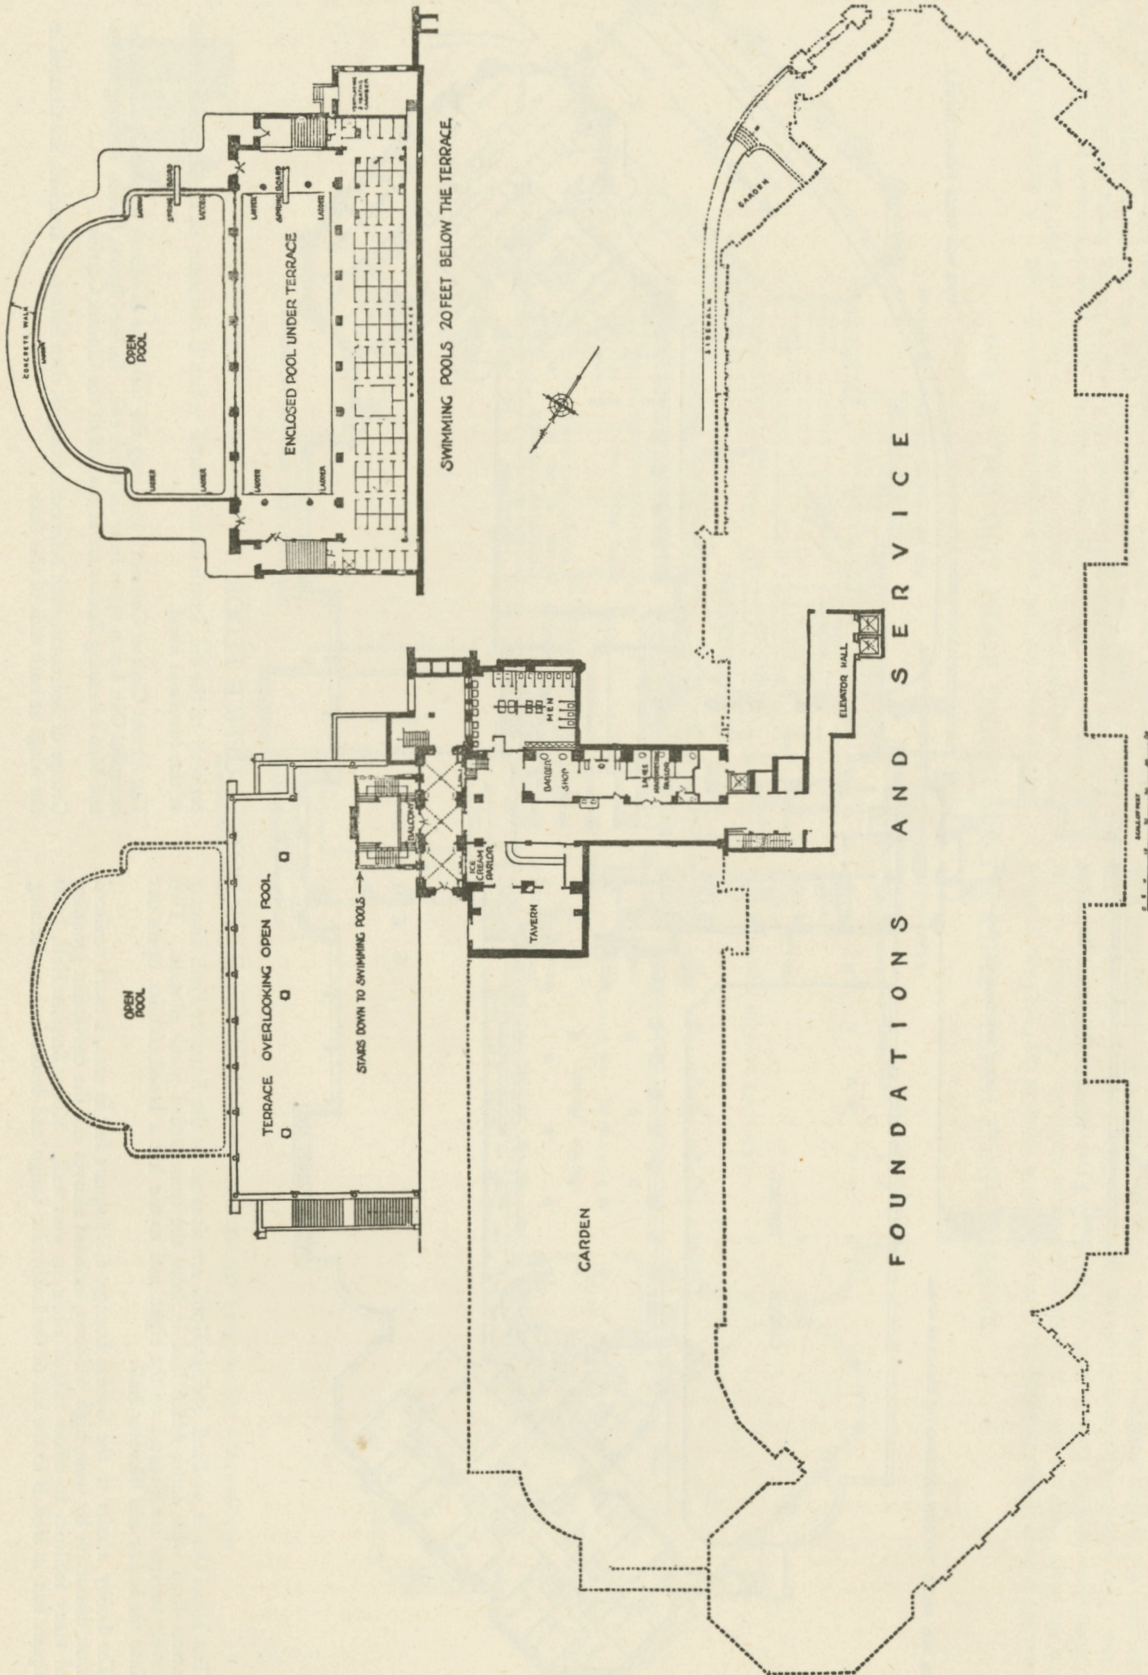

WILD FLOWERS
