

CHATEAU LAKE LOUISE, LAKE LOUISE, ALTA.

CANADIAN PACIFIC

The Expression of a Nation's Character

WORLDWIDE in scope, international in activities, the Canadian Pacific is pre-eminently the expression of a progressive nation's character.

Canadian Pacific rails extend from the Atlantic to the Pacific Ocean, webbing prairies and mountains, reaching out to cities, farms, forests, ranches and mines scattered over a million square miles.

Stupendous record in steel of the daring and genius of a young people who fifty years ago dreamed of transforming a virgin wilderness into a nation—and made their dream come true.

Canadian Pacific Steamships, on all the seven seas—Canadian Pacific Telegraphs, carrying messages to world's end and back—Canadian Pacific Express, trusted bearer of goods to the farthest places, with money-orders of worldwide currency—Canadian Pacific Hotels, with guests from all the continents.

Gigantic symbol of the vision, enterprise and spirit of the people of Canada.

LAKE LOUISE

Where the giant peaks lean closest together in the heart of the Canadian Rockies, there in beauty lies Lake Louise, probably the loveliest bit of scenery in the world. Geographically, it is a "cirque" lake, its iridescent waters held in a deep bowl which long ago was carved into the mountainside by the glaciers of the Ice Age. Scenically, it is a marvel that carries the soft liquid music of its name almost into the realm of the visible. Close

to its shore is the magnificent Chateau Lake Louise, rising in the midst of an exquisite Alpine Garden where beds of poppies, violets, anemones and sheep laurel slope down terraced lawns. A narrow-gauge railway connects the Chateau with the Canadian Pacific station which lies six hundred feet lower down on the farther side of a mountain palisade.

The CLIMATE

Of all the thousands upon thousands of people who have visited Lake Louise in the past forty years, not one has ever suggested that its climate could be improved. Days and nights are alike perfect, the one just warm enough to permit of outdoor swimming, the other just cool enough to make sleeping pleasant and refreshing. Lake

Louise lies at an altitude of 5,670 feet above sea-level and as a result of this high elevation, the air possesses an invigorating, tonic-like quality. Minds and bodies both find new vigor under the stimulus supplied by the cool, ever-blown breezes, brilliant sunshine and clean, dustless air of this pearl among mountain resorts.

POINTS of INTEREST

Lake Louise lies in the midst of a region of surpassing scenic beauty and grandeur which offers a wide range of sightseeing features of striking and unusual interest. Within easy distance of the Chateau are the Lakes in the Clouds (Mirror and Agnes), closely guarded by white headed peaks, the Little Beehive, with its observatory, Victoria Glacier, a mantle of ice from 200 to 250 feet thick, the Plain of the Six Glaciers, the Saddleback, from which a magnificent panoramic view is afforded, Paradise Valley, which is all that its name implies, Lake Annette and the Giant Steps, Moraine Lake and the Valley of

the Ten Peaks and the Great Divide. Farther away, the Ptarmigan Lakes, Pipestone Valley, Hector and Bow Lakes, Molar Pass, the Consolation Lakes, Sentinel Pass and countless other scenic wonders can be reached by well-maintained pony trails.

Recreational Attractions and Facilities

SWIMMING

A large swimming pool is one of the chief attractions at Chateau Lake Louise. This is located alongside the hotel, and is 110 feet in length, 40 feet in width, with shallow and deep ends. The glacial water with which the pool is filled is maintained at the comfortably warm temperature of 75 degrees Fahrenheit. Glass sides protect bathers from the wind. An adjoining building contains dressing rooms, etc. The charge for use of the pool is 50 cents a person. This includes private dressing room, bathing suit and towel.

TENNIS

Excellent tennis courts adjoin Chateau Lake Louise, upon which guests have the privilege of playing free of charge. Racquets and tennis balls may be obtained from the Hotel Office without charge.

PONY TRIPS

Well maintained trails radiate in every direction from Lake Louise and, astride sure-footed mountain ponies, many and varied trips may be made to points of special scenic interest in the surrounding region. Within easy range are the Lakes in the Clouds, The Saddleback, Paradise Valley, Lake Annette and the Giant Steps, Plain of the Six Glaciers and the Great Divide. Longer trips can be arranged to Wapta Camp, the Ptarmigan Lakes, Pipestone Valley, Hector and Bow Lakes, etc. The services of guides, where required, can be secured and full riding kit with the exception of boots, rented at Chateau Lake Louise.

MOTORING

Excellent highways and the splendor of the mountain scenery in the vicinity of Lake Louise make it a veritable paradise for the motorist. Several automobile mechanics are located at Lake Louise, and gasoline and oil may be purchased there.

A fine scenic route is the road that leads to Banff, passing Mount Temple and following the Bow River practically all the way. Castle Mountain, Johnston Canyon and a spot where a large band of mountain sheep may usually be seen are high points of this delightful trip.

Another splendid road extends to Field and Emerald Lake. This proceeds westward to the Great Divide, and passing Wapta Bungalow Camp follows the course of the brawling Kicking Horse River. This is a most spectacular drive, which links up with the roads traversing Yoho National Park.

The Kicking Horse Trail runs from a point on the Field-Emerald Lake road to Golden, whence the Columbia River Highway leads south to Lake Windermere and Cranbrook. The trip through the Kicking Horse Canyon is one of striking scenic grandeur.

MOUNTAIN CLIMBING

Lake Louise is an unsurpassed centre for mountain climbing. Forming a gigantic circle around Lake Louise is an array of mountains including Fairview, Aberdeen, Temple, Lefroy, Victoria, Pope's Peak, Whyte, Devil's Thumb, St. Piran, The Needles, Beehive, Niblock and others more distant, offering a wide range of climbs alike for the novice and experienced climber.

Swiss Guides connected with Chateau Lake Louise may be engaged at a fee of \$7.00 a day. Guides provide their own food, also ropes and ice axes.

HIKING

Short and long hikes are exceedingly numerous and varied, many of which may be safely undertaken without guides. The trails from Chateau Lake Louise to Saddleback, 2½ miles in length, to the Plain of Six Glaciers, 4 miles in length, to Lake Agnes, 3 miles in length, to the Beehive, 4 miles in length, are among the most popular hikes.

MUSIC AND DANCING

Dances are held in the Ball Room every week day evening during the season. Musical concerts on Sunday evenings and Nature Study Talks frequently.

BOATING

It is hard to imagine boating under more naturally attractive conditions than those prevailing at Lake Louise. The lake is 1½ miles long and about ¾ mile in width, and protected as it is by high encircling mountains, the water is seldom rough enough to interfere with this form of activity.

FISHING

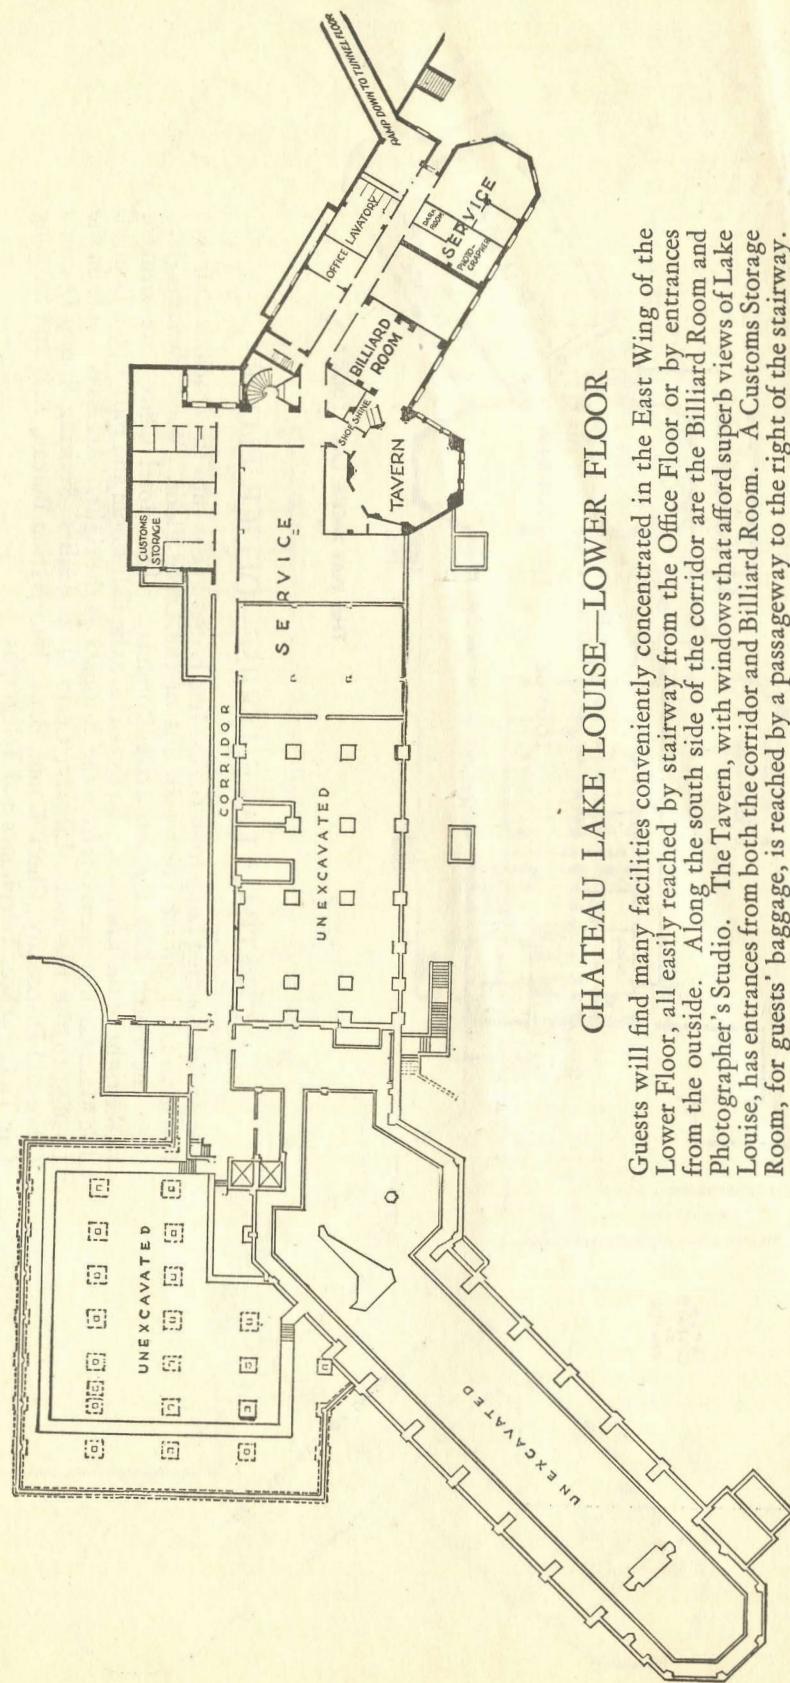

Fair fishing is offered in nearby waters such as the Bow and Pipestone rivers, Moraine and Consolation lakes, while much better sport is afforded in more distant lakes and streams reached by pack train with guides. Among the latter are the Upper Pipestone and Little Pipestone Rivers, Hector Lake, Bow Lake, etc.

WILD LIFE

There are splendid opportunities for seeing and photographing wild animals in their natural haunts in the territory around Lake Louise.
