## *A Dream Come True*

**W**HEN, on November 7, 1885, the last spike was driven linking the rails of the Canadian Pacific Railway, developments only dreamed of that day were to follow.

Soon ships flying the red and white Canadian Pacific house flag were plying the Pacific . . . then the Atlantic. There followed a chain of hotels . . . resorts and lodges . . . coastal and inland steamships . . . express and telegraph services—the whole forming an all-Canadian system stretching more than half way round the world.

In 1939, this vast system was dedicated to the winning of the war. Since then the Company's rail lines alone have handled more than 128 billion ton miles of freight—and 11 billion passenger miles. All ocean steamships have been on active service—many have gone down fighting.

Now the Canadian Pacific faces the future. Plans have been completed for the construction of new, improved locomotives and coaches . . . sleeping cars . . . parlour cars . . . diners; for the renovation of stations and hotels; and for the building of a new fleet of ocean vessels.

In a world at peace the Canadian Pacific will do its part in providing modern, efficient transportation by land and sea.
