MOUNT ASSINIBOINE

One of the highest peaks in the Canadian Rockies, Mount Assiniboine, reproduced from an oil by Carl Rungius, noted painter of mountain life, is a mecca for trail riders and climbers. This 11,870-foot pinnacle is surrounded by colourful glaciers and lakes noted for Cut-throat Trout. In winter the country between Mount Assiniboine and Banff beckons skiers.

Banff, Alta., starting point for the two-day ride to Mount Assiniboine, is less than 24 hours from Vancouver on the transcontinental line of the Canadian Pacific Railway. Arrangements for ponies, guides and outfits may be made at Banff Springs Hotel.
