\*Iced if desired

## ***Outdoors in Canada this Summer***

The golden sands of Canada's east coast . . . the island-dotted, sheltered sailing waters of the west coast . . . are duplicated a thousand times throughout Canada. Trim yachts skim the waters that salt the breezes of Nova Scotia, New Brunswick, Prince Edward Island, Newfoundland . . . cavort gaily over the sweet waters of countless inland lakes in every Canadian province.

Gay bathers gather suntan on the seaside beaches of Vancouver Island, the British Columbia mainland, Prince Edward Island, New Brunswick, Nova Scotia . . . on the golden sands that fringe lakes in Quebec, Ontario, Manitoba, Saskatchewan, Alberta . . . open-air pools of *Banff Springs Hotel*, *Chateau Lake Louise* in the Canadian Rockies and *The Digby Pines* on Nova Scotia's broad, sheltered Annapolis Basin.

*In summer the whole Canadian outdoors becomes a legendary playground with everything for the holiday-maker . . . sailing, swimming, hiking, fishing, golf, matchless scenery, matchless hospitality, matchless enjoyment.*
