

**Park Lounge Car** – At the back of “The Canadian”, you’ll discover a car with a congenial club-like atmosphere. Complete with a bar section, comfortable sitting area and upstairs dome, the Park Lounge Car is the place to enjoy a conversation with new friends.

**“The Canadian” ...  
a memorable experience**

Enjoyment. That’s what train travel is all about. And that’s what you’ll find on “The Canadian”, where our staff is waiting to provide first-class service.

We’d like you to leave with fond memories of “The Canadian” experience – the highlight of a fine vacation. If you have any ideas on how we can better serve you, just drop us a line. And thanks for choosing us.

A.R. Campbell,  
General Manager,  
Passenger Services,

**“The  
Canadian”  
experience**

**W**elcome to "The Canadian" experience... where we turn journeys into holidays. It's time to lean back and enjoy a train designed to take the effort out of travelling.

You'll find us friendly, helpful and willing to make this trip a memorable one—because serving you is "The Canadian" tradition. Feel free to move about. And while you're at it, stretch your legs and your imagination.

If you're discovering "The Canadian" experience for the first time, we'd like to help you get the most out of our facilities.

**Coaches**—Sit back in one of our full reclining seats, put your legs up on its individual rest and watch Canada roll by. Our 60-seat deluxe coaches are designed to let you sightsee in comfort. That's why we have extra-large windows: so you don't miss one tint in a prairie sunset. Or an unexpected valley view in our towering Rockies.

And to keep the air as clear as the view, we ask all smokers to light up only in the front section of each coach. That way, everyone can enjoy the ride. An attendant is always on hand to help out—whether it's keeping the car in tip-top shape or providing a pillow for a nap.

In our full-service dining car, you'll find the same popular meals—at the same prices—as are offered in the buffet car, as well as a variety of additional specialty selections. Enjoy a complete meal or drop in for a snack, any time between seven in the morning and 9:30 at night.

**Sleepers**—The variety of sleeping accommodation on "The Canadian" has been designed to give you a choice—from berths and roomettes to bedrooms and drawing rooms. If you do not already have a reservation, talk to your sleeping car conductor. He'll help you make the right choice.

Each sleeping car has a porter on duty around the clock. Your porter will explain how to use the amenities and facilities in your accommodations and will pull down your bed anytime when requested. And if you want your shoes polished come morning, just put them in the shoe locker at night. Remember this: *shoe lockers aren't meant for storing cameras and other valuables.*

### **Skyline Dome Coach and Dining Car—**

Next to the coaches, you'll find our complete-service Skyline buffet car which is open from 7:00 a.m. and is in continuous service throughout the day. The Skyline offers snacks, drinks, full meals or take-out service. It also features an up-stairs dome section with a panoramic view of this journey's star attraction: Canada.
