### HUNTING AND IN CANADA

CANADA offers the most remarkable opportunities for outdoor sports that can now be obtained on any continent. Its wonderful fishing includes trout, bass, muskellunge, scores of other species in its forest and river streams. Game ranges cover small game—moose, mountain goat, deer and caribou—and many kinds of birds.

These sporting opportunities are widely distributed all out practically all over Canada, the fishing varying, of course, by locality. But where sought, the Canadian will take you through a sportman's line.

If you are interested in fishing or shooting, Canadian Pacific General Publicity Bureau, Montreal. Just write, and they will send you detailed information.
