# GROWTH FIGURES CAN READ LIKE FICTION

More and better goods produced for more people tells one side of the story of a nation's industrial growth. General prosperity proves such progress. But, the location of the plants that serve growing markets is another engrossing story. Our long and varied experience with this important activity continues to be of substantial aid to Industry in finding ideal locations for production-right plants. In the last 15 years a plant has been located or one expanded every 30 hours along B&O lines—in B&O's Land of Big Opportunity. The reason is easy to find! B&O's area has what Industry needs and B&O Plant Location People know how to provide a better plant location answer. Ask our man!
