**EVERYONE LIKES A**

**"Plus"!**

Many patrons have been good enough to write to tell us why they ride on our railroad again and again. They say that the B&O does more than provide good passenger transportation—that it is the “extras” which make travel on our railroad so completely pleasant.

These “plus” factors add so much to the journey. The effortless gliding of Diesel-power, for instance, gives a smooth ride. The excellent way food is prepared and served in our diners makes every meal a treat. The folks appreciate, too, the friendly attention of the train personnel. And with it all goes the confident feeling that the B&O gets in “on time.”

You like the B&O. Won't you let your friends know, too, why the B&O is the way to go?
