#### **UXURY COACHES**

• The first feeling upon entering the Great Northern Railway's New Luxury Coaches is one of pleased surprise. Cool green and white marble effect on the floor. Warm peach and ivory in the woodwork. Tones of brown brocade on seats. Bright aluminum in all metal work. It makes you feel welcome-among friends.

And the two lounges-the Ladies' Lounge with mirrors everywhere and a dainty dressing table is in tones of green with bright aluminum fixtures. You go into a different world from the rest of the car when you enter here.

The Men's Lounge is really a club smoking room with its deep upholstered brown leather furniture. Men will gather here for a smoke and the swapping of stories. It is just another Great Northern Railway thought for the comfort of the traveling public-comfort provided without extra

Completely CONDITIONED

### High Lights of Air Conditioning.

When air-conditioning became practical Great Northern Railway immediately adopted it for the Empire Builder. Now passing from the warm plains through cool mountain ranges creates no problem in passenger comfort. Air-conditioning is the answer.

## Temperature Control by Day.

Day as well as night temperature in Great Northern Railway's Empire Builder remains the same. It may be broiling hot on the prairie or uncomfortably cold in the shadow of great peaks but within the Great Northern Railway's new Empire Builder Luxury Coaches and Tourist Sleepers healthful temperature remains unchanged.

#### Moisture Control.

Dry burnt-out air is detrimental to health. But on the Empire Builder no such condition exists. Great Northern Railway's air-conditioning service maintains the exact degree of moisture required for our well-being.

#### Quiet.

Gone are the cracking and snapping of steam pipes. None of this noise caused by temperature fluctuations in Great Northern Railway's Empire Builder Luxury Coaches and Tourist Cars. Airconditioning is absolutely silent.

#### Odorless.

You will never experience that baked dust smell and smoke so frequent previous to air-conditioning. The air in Great Northern Railway's Empire Builder Luxury Coaches and Tourist Sleeping Cars is as fresh and sweet as outdoors in the Springtime.

## Clean.

You will miss the dust and soot of travel in these fine new modern cars built specially for Great Northern Railway's Empire Builder. Air-conditioning not only takes care of temperature and moisture but actually filters the air so that no dirt from the outside will reach your car.

Potentates and princes never traveled in the luxury and ease now enjoyed by tourists on the Great Northern Railway. Look at the inside of this new car.

A fine mattress, immaculate sheets, a pillow of down and Great Northern Railway's air-conditioning to produce sound, peaceful slumber.

# EMPIRE BUILDER TOURIST SLEEPING CARS

Great Northern Railway has just completed building a series of Tourist Sleeping Cars far superior to those obtainable a year or two back. Modern air-conditioning replaces the old variable temperatures and

# "More For Your Money" Great Northern Policy

It might be expected that the vast improvements in travel comfort, which Great Northern Railway supplies in its Luxury Day Coaches and new Tourist Sleeping Cars, would call for an increase in rates. But this is not so. The Great Northern Railway has a definite policy of putting into operation every new comfort device for passengers as soon as those devices have been properly tested and proved of service. BUT RATES ARE LOWER.

Complete Air-Conditioning of the Empire Builder trains is an outstanding example of Great Northern Railway's policy to give passengers more for their money. There is no plus fare.

## Train Travel is Cheaper

From Chicago to the Pacific Coast or for shorter distances in between it costs less to go by train than to drive your car. Go by train. You avoid the dangers of the road, there is no refueling, no uncertainty of arrival time. no longer will you hear the porter asked for extra blankets in the night. The temperature in these fine cars remains constant whether it be hot summer outside or a blizzard from the mountains in winter.

## Empire Builder Meals Prices Low as 50¢

We are constantly complimented upon the delicious meals served in the Empire Builder Dining Cars. A frequent comment is that no finer meals can be obtained anywhere. This might lead you to believe that to eat in an Empire Builder Dining Car is an expensive luxury. This is not so, fine foods are obtained here so reasonable that you can secure an excellent meal for as little as 50 cents.

#### Train Travel is Safer

The huge toll of accidents on all of our motor highways proves, definitely, that the safest place to be is on a railroad train. Take the safe way when you travel. Go by train. It is the safer way to travel—Westbound or Eastbound.

# Train Travel is Dependable

You start on time and you arrive on time. It is seldom, indeed, that a Great Northern Railway train fails to reach its destination on the exact minute. You can make definite social or business engagements. You can plan business or vacation trips to the hour.
