VACATIONS WITHOUT A CARE

GREAT NORTHERN RAILWAY

**ECONOMY • COMFORT
SAFETY • PLEASURE**

Great Northern Vacations

PLANNED ESCORTED TOURS represent a sound travel plan that meets every requirement for a complete, comfortable, carefree and economical vacation. "Vacations Without a Care" are words with real meaning.

These tours are carefully planned vacations, with nothing left to chance or guess. There is no need to disturb yourself with perplexing details such as mapping out your entire vacation trip, charting a course, studying costs and poring over timetables. You merely decide where you want to go, how much you want to spend, how long you wish to be gone and when you prefer to start.

Before you start, your complete route is definitely established. Railroad transportation and Pullman space, meals and lodging at the best hotels, motor transportation for sight-seeing trips, even the handling of baggage en route . . . all are included in the one cost, paid in advance in a lump sum. You travel in Pullmans attached to the fine trains, each carrying dining cars, observation car and high-class modern equipment.

An experienced travel escort accompanies each party and relieves you of all responsibility. All you do is have a good time amid fascinating surroundings with congenial companions. An Escorted Tour vacation is especially desirable for one traveling alone. Come with us this summer on one of our tour parties, and have the time of your life.

Let us send you additional literature on Escorted Tours and Great Northern scenic adventure land. On request we shall be pleased to have a Great Northern representative personally call and assist you in completing your vacation arrangements.

GLACIER NATIONAL PARK

\$104.¹⁰

All-Expense from Chicago and return. A seven day tour. Includes first-class railroad and sleeping car accommodations, fine hotels, all meals and motor tour. Four glorious days in the spectacular Rocky Mountains of Glacier National Park, including the scenic Going-to-the-Sun Highway over the crest of Continental Divide.
