Coffee Milk or Tea (Hot or Iced)

"Space Needle". . . soaring 600 ft. above Seattle World's Fair site, and now a permanent landmark . . . affords glorious panoramic view of surrounding lakes, mountains and Puget Sound from revolving restaurant and observation deck.

The scenic and historic route of the Western Star stretches Westward from Chicago to Seattle, Washington, and Portland, Oregon, great inland seaports of the Pacific Northwest, via Saint Paul and Minneapolis in Minnesota, and Spokane, Washington.

From Chicago to Saint Paul the route is that of the Burlington Lines; between the Twin Cities and Seattle, that of Great Northern Railway, and from Spokane to Portland, along the North bank of the Columbia River, via the Spokane, Portland & Seattle Railway.

Great Northern's main line swings through three time zones; over two major mountain ranges; along the boundary of Montana's Glacier National Park, America's third largest and only national park on the main line of a transcontinental railway; and through the formidable Cascade Range in Washington, via the 7.79-mile Cascade Tunnel, longest rail bore in the Western World.

The Western Star serves Glacier National Park daily during the summer travel season.
