RAILWAY AGE

One of Five Simmons-Boardman Railway Publications

WINS FRIENDS...and BUSINESS

63 General Motors Locomotives to the B. & O.

During the first six months of this year, 63 new General Motors Diesel locomotive units—4 E9's, 30 GP9's and 29 SW900's—joined the fleet of the Baltimore & Ohio Railroad. Trains headed by these modern power units operate on so much faster schedules, ride so much smoother and arrive on time practically always.

This superior service is winning new friends and attracting more business for railroads.
