FORM 5255. 50M. 6-13

"You have one of the best illustrations of what can be done in feeding people along the right lines, with the right kind of food, in the dining car service of the Northern Pacific Railway. The food served and its preparation should be a model for every railroad and hotel in America. Much of the food they serve comes from their own model farms and the way it is prepared should be copied by others who wish to serve the public with food that is healthful."
