North Dakota

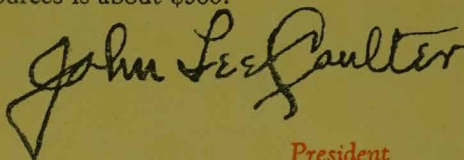

North Dakota welcomes new settlers.

We have room for them to live and to succeed.

Governor

This year North Dakota has produced nearly \$600 of new wealth in agricultural products for every man, woman and child in the state. The average agricultural production for the U. S. from all sources is about \$300.

President

NORTH DAKOTA COLLEGE OF AGRICULTURE

Products of North Dakota are featured on our dining cars in November — "North Dakota Month."

Testifying to the great resourcefulness of North Dakota's farm and dairy industries, today you will find butter, eggs, cheese, poultry, beef, mutton, veal, pork, fruit, vegetables, flour, cereals and even sugar on the Northern Pacific Dining Cars, all North Dakota products.
