Passengers On Special Diet Are Invited To Make Known Their Requirements To The Steward.

Alpine America

Scenic bigness and beauty are natural magnets. That's why human nature answers spontaneously the lure of the mighty national parks and eternally snow-clad peaks of the Pacific Northwest.

Mount Rainier National Park, Washington, bids a multitude to its wealth of grandeur and alpine sports the year around. In summer its 200-mile Yakima-Seattle-Tacoma detour embraces Yakima's fruit paradise, giant forests, the rugged Cascade Mountains and hospitable Sunrise Lodge.

Further north, Mt. Baker, Washington, displays its "alpine picture book"—a nationally designated recreation area because of rare beauty and diversions.

Mt. Hood, Oregon, scene of the 1939 International Ski Trials, grows perennially more popular and its unique Timberline Lodge alone attracted 114,000 visitors in 1938, its first year.

Olympic National Park, Washington, newest of all national parks, soothes the world-weary with its patriarchal forests, rugged mountains, foaming trout and salmon streams and wild game haunts.

For arrangements to enjoy any or all of these regions, consult any Northern Pacific passenger representative. Information and descriptive literature for future reference will be gladly supplied on request to

E. E. NELSON, Passenger Traffic Manager
Northern Pacific Railway, St. Paul, Minn.
