FOR YOUR TRAVEL COMFORT.**

THE *Jeffersonian*

**NOW LUXURIOUSLY RE-EQUIPPED, OPENS A NEW
EPOCH IN TRAVEL COMFORT FOR COACH PASSENGERS!**

On April 27, 1941, the Pennsylvania Railroad introduced *The Jeffersonian*—the first reserved seat, all-coach streamliner between New York and St. Louis. Increasingly popular from the first trip, it has now been fully re-equipped with new overnight coaches, Observation-Buffer Lounge Car, a spacious Dining Car and a complete Recreation Car.

In designing this train we have attempted to anticipate the future in design, engineering, style and comfort to reward you with the most pleasant interlude you can enjoy on the lanes of travel between East and West.

Enjoy electric power all the way! Between New York and Harrisburg, you ride behind a streamlined electric locomotive—then from Harrisburg west, a giant Diesel-electric takes its turn. All for your travel comfort!

**A
LIGHT TOUCH
AND YOU ENTER**

Electro-pneumatic doors
open and close easily.
Silent power is released
when you push gently on
a wide, shiny bar, to enter
or lift the latch handle
easily, going out.

**AND HERE IS
YOUR ROOMY
NEW COACH**

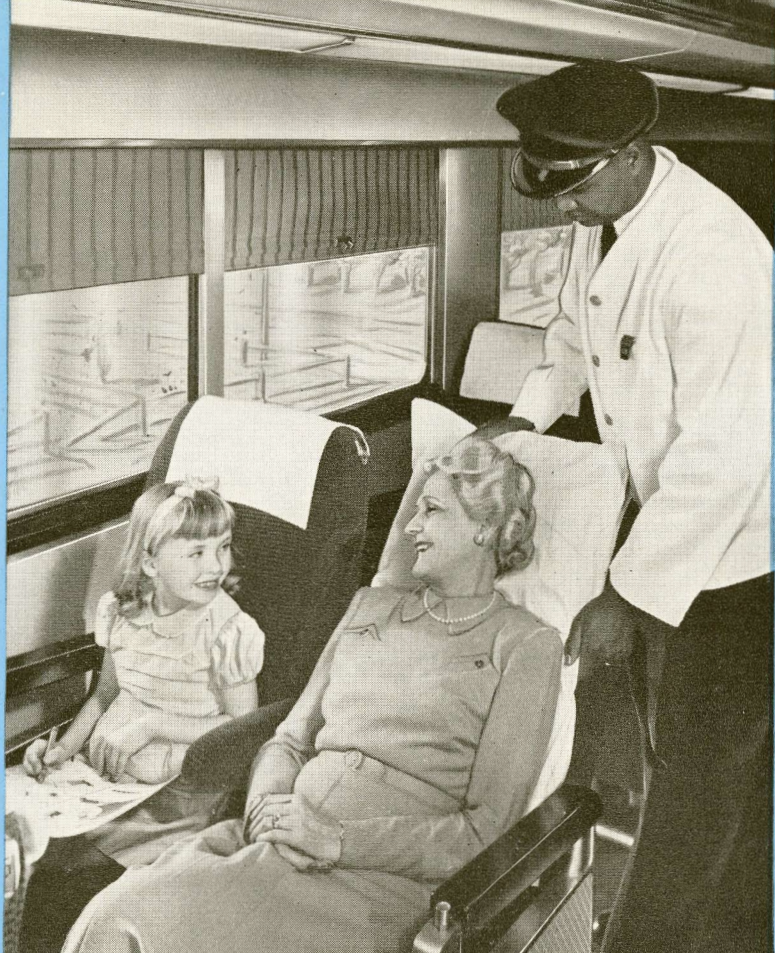

The sheer brilliance of its fluorescent lighting—soft, rich, shadowless—strikes a new note instantly. The decorative scheme adapts the restful tones of the modern. There is plenty of space for your individual relaxation and comfort—*only 44 seats to a car* and all reclining.

**SO EASY TO RELAX
COMPLETELY IN
YOUR RESERVED
RECLINING SEAT**

New in design as the coaches themselves! You can sit upright, for reading or enjoying the scenery... leanback, for relaxation... stretch out, for a nap or sleep. Luxuriously upholstered, adjustable to four different positions, these seats add to the comfort of your trip.

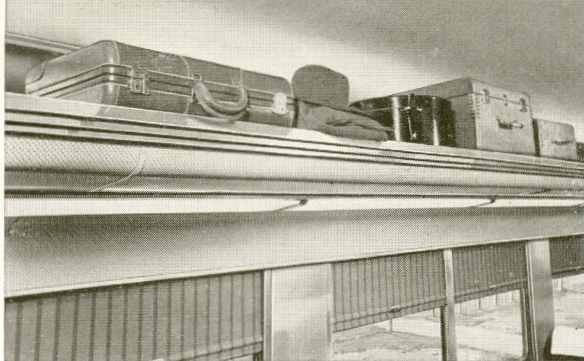

ALL SEATS RESERVED

A Special Note to Mothers! To add to your travel comfort please reserve a seat for each child accompanying you. This applies to children under 5 years of age, traveling free, or from 5 years of age and under 12, traveling one-half fare.

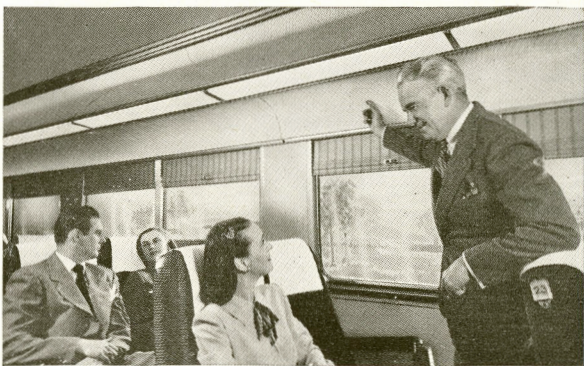

EXTRA-WIDE PANORAMA WINDOWS—double-paned to exclude noise, heat, cold and dust. And so important, too—an individual shade for each double seat.

FOR OVERNIGHT BAGS—and the lighter things you carry with you on your trip. Overhead luggage racks are deeper . . . roomier . . . easy to reach.

FOR HEAVIER LUGGAGE—a commodious compartment at the end of each car. Bulky things are stored out of sight—but handy should there be anything you need.

NEW-TYPE AIR-CONDITIONING—for draftless, comfortable travel. Fresh air circulates continuously. No matter what the weather, temperature inside is ideal in any season.

Modern
Spaciousness

IN
WASHROOMS,
TOO

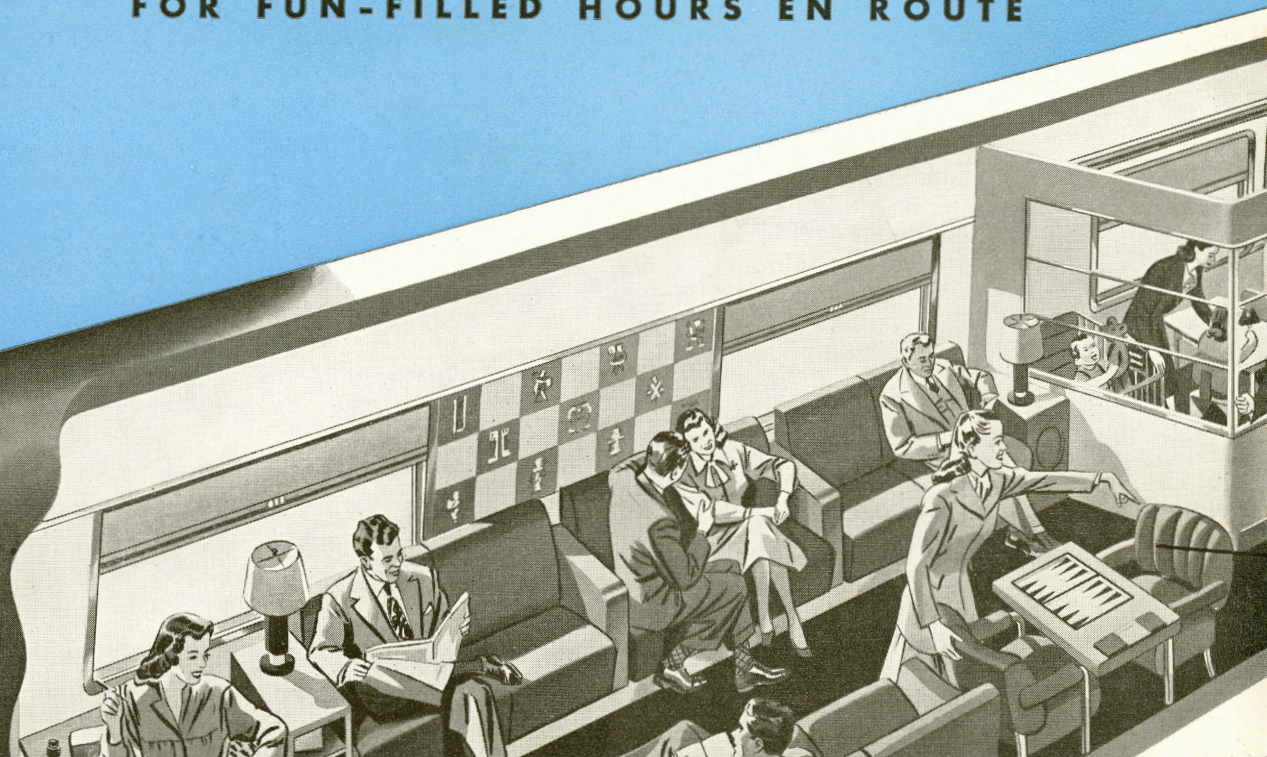

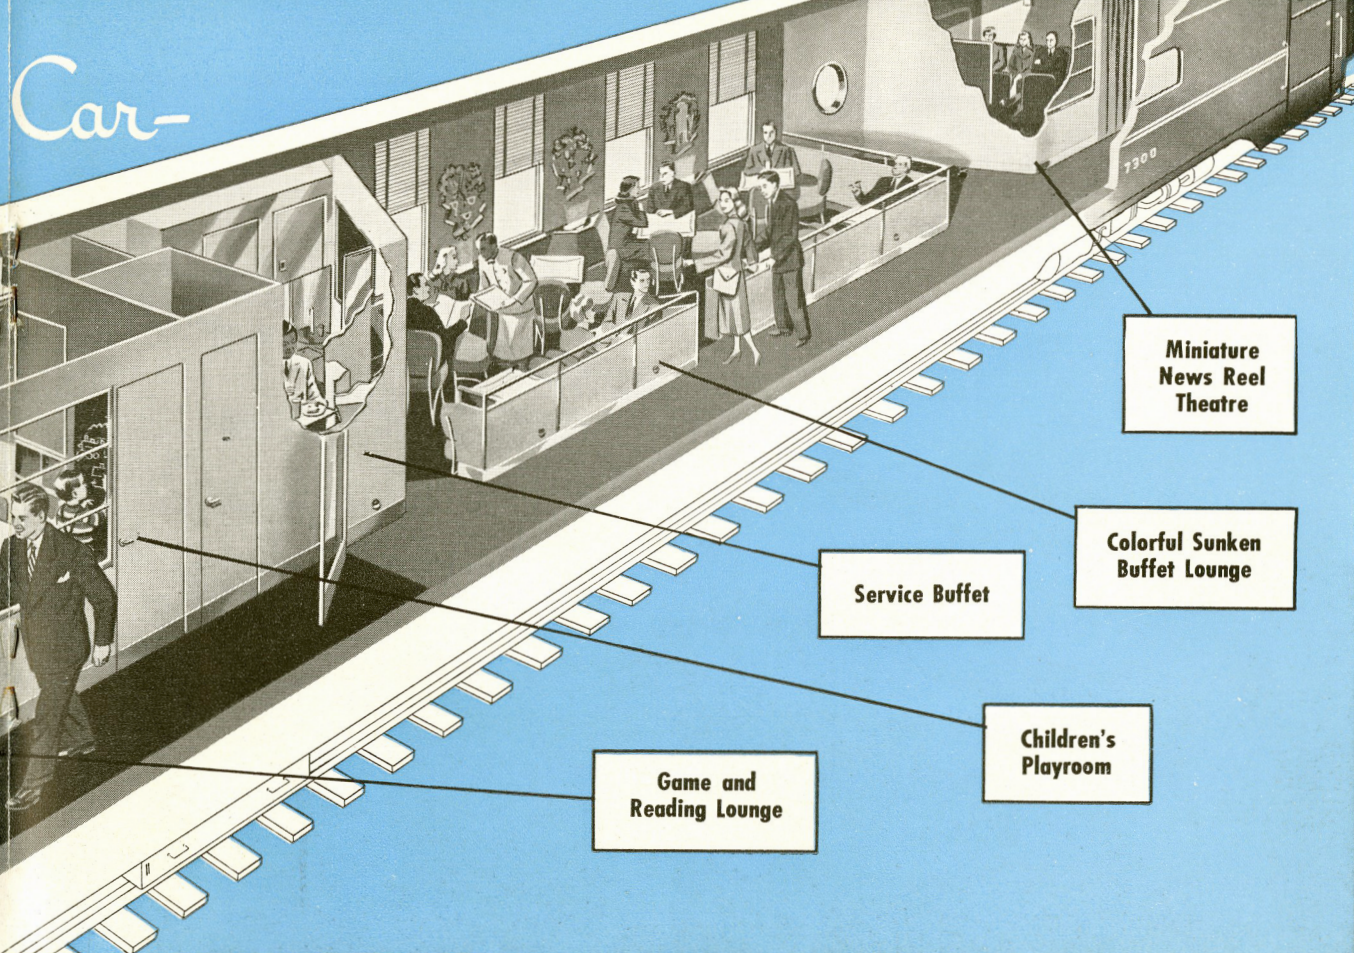

At one end of each coach, an extra-large powder room for women—at the other, an equally large washroom for men.

In utility and thoughtfulness as well as decorative beauty, these rooms surpass anything hitherto achieved. For example, each has two toilet annexes instead of one . . . three glistening washstands plus a dental bowl . . . a wealth of mirrors. For women—a vanity table; for men—outlets for electric shavers.
