HERE'S OUR POPULAR CHOICE

Along The Line

In making up dining car menus we are, of course, guided by our knowledge of what most travelers like to eat. Over the years one American favorite stands out over all others as the popular choice, and you will probably find it reflected on this menu and indeed, on nearly every Pennsylvania Railroad dining car menu. There are very basic reasons why we call this food favorite "The Traveler's Special." America is a land of travel—travel which opened the West to settlement and expansion; travel which today promotes the free enterprise and trade that keep our country strong. Through the years these travelers on horseback, in stage-coaches and trains have looked forward to meal-times and the enjoyment of crisp, flavorful bacon or tasty ham served with farm-fresh eggs prepared to order.

We think you will enjoy it, too.

A Pennsylvania Service... for your protection liquors and cordials are served to you in their original sealed bottle. Your waiter will always open it in your presence. Sale prohibited in all states to minors and to persons intoxicated. Sorry, we cannot provide "Set-ups."
