THE TRAIL BLAZER

NEWLY EQUIPPED, LUXURIOUS ALL-COACH STREAMLINER

On July 28, 1939, Pennsylvania Railroad introduced *The Trail Blazer*—a train then heralded as the finest, reserved seat, all-coach streamliner between New York and Chicago. Its acceptance was immediate!

Now, an *all-new Trail Blazer* makes its bow—ininitely modern . . . completely re-equipped, *from end to end!*

Here is a train representing the finest that modern design and engineering can produce . . . with features, comforts, innovations never before available over this East-West route. And you enjoy electric power *all the way* . . . a streamlined electric locomotive between New York and Harrisburg, a giant Diesel-electric between Harrisburg and Chicago.

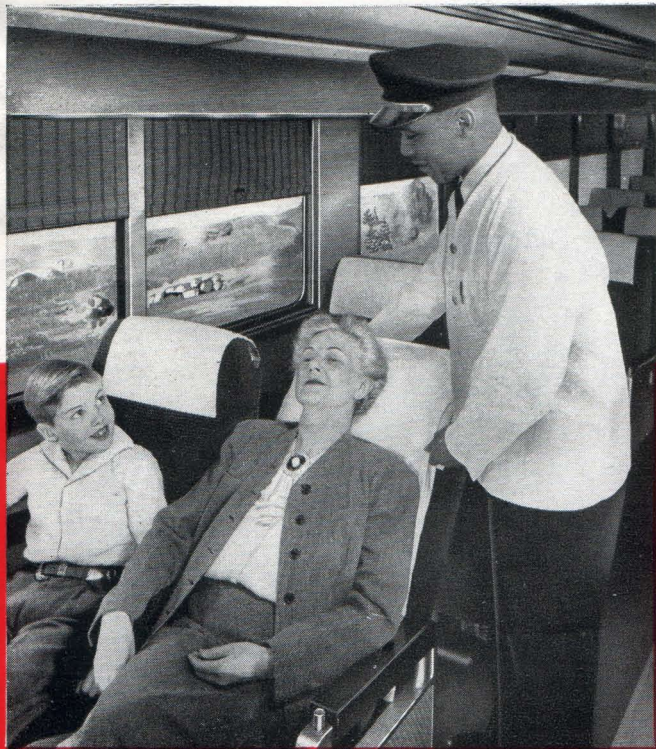

Press Gently and You Enter

Electro-pneumatic doors open and close easily. Silent power is released when you push gently on a wide, shiny bar, to enter; lift easily on the latch handle, going out.

Your Coach is Roomy ... Only 44 Seats!

All seats are reclining. The extra space means more comfort . . . more leg room whether sitting upright or reclining. The decorative scheme of your coach is modern, soft-toned and restful.

Easy Chair Comfort in Your Reserved Reclining Seat

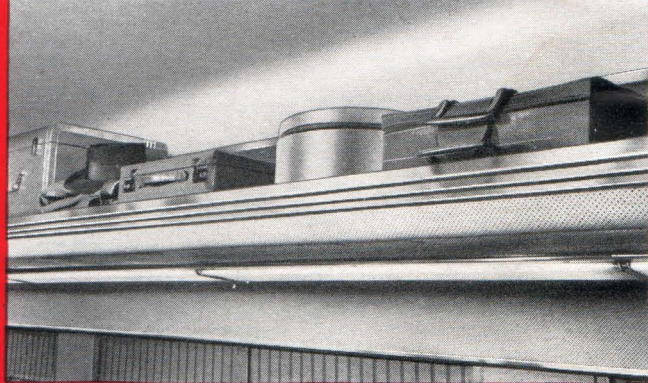

Lean back...stretch out! Soft, deep-cushioned seats are as new in design as the coaches themselves. For reading, resting or a nap—adjust them to your liking. Seats move to four different positions.

ALL SEATS ARE RESERVED!

A Special Note to Mothers! To add to your travel comfort please reserve a seat for each child accompanying you. This applies to children under 5 years of age, traveling free, or from 5 years of age and under 12, traveling one-half fare.

New Features... New Pleasures...

FOR A MEMORABLE TRIP

FOR LIGHTER LUGGAGE and things you'll need on your trip, overhead racks are deeper, roomier...easy to reach.

BRILLIANTLY LIGHTED—a no-glare, shadowless, fluorescent light for reading. Dimmed at night during the slumber hours.

FOR HEAVIER LUGGAGE — this commodious compartment is conveniently located at the end of each coach.

IMPROVEMENTS... INNOVATIONS

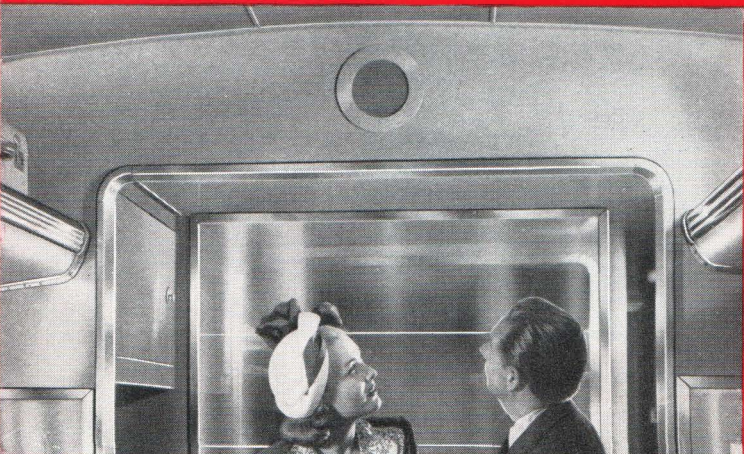

YOU'LL FIND THEM ALL AROUND YOU

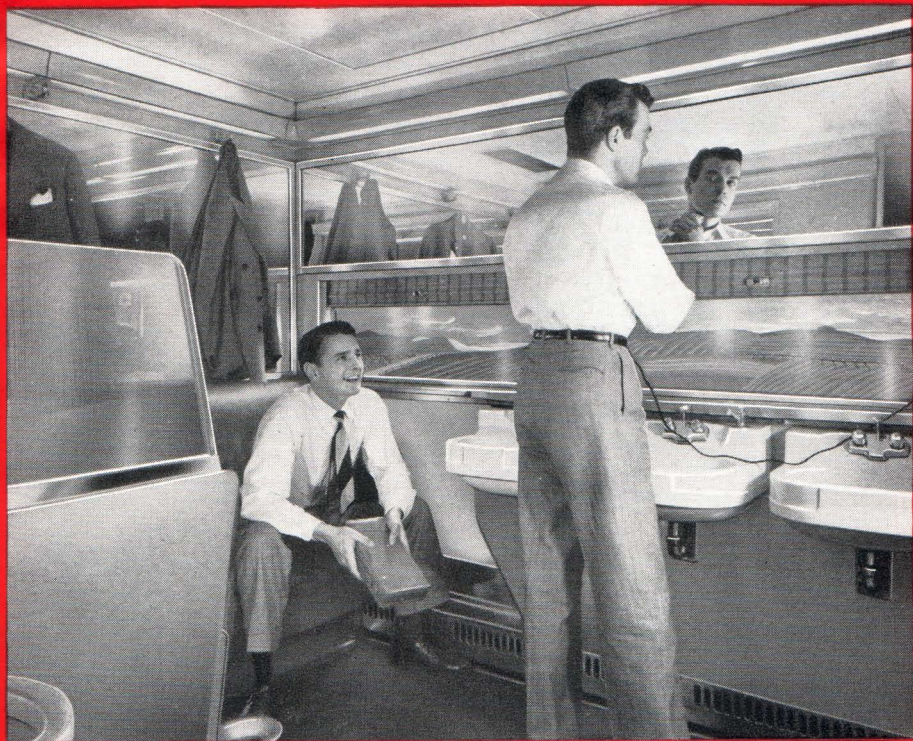

NEW TYPE AIR-CONDITIONING
that circulates pure, fresh air day
and night. From one end of the car to
the other, draftless, controlled tem-
peratures are comfortable no matter
what the weather.

EXTRA-SPACIOUS WINDOWS—panoramic for wide-angle views. Six feet wide...divided in the center with a metal strip to provide an individual shade for each double seat. Double-paned to shut out noise, heat, cold and dust.

TRAIN ADDRESS SYSTEM! Announcements important to passengers are broadcast and heard in every car. To help you lull the miles away, relaxing, soft music is heard in the entertaining Club Lounge and Observation Lounge Cars.

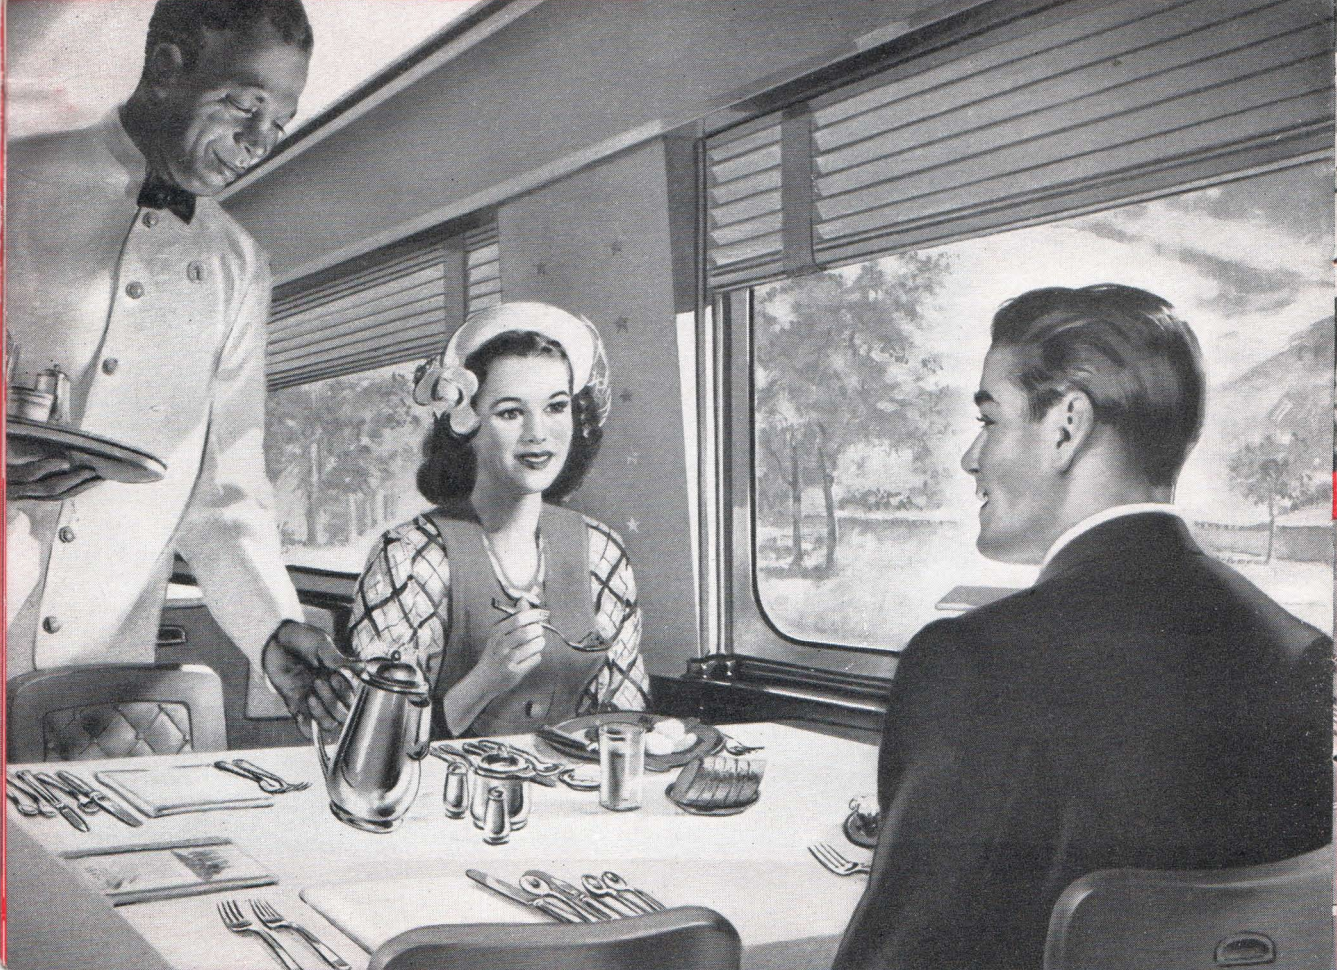

Now Look at
Your Washroom
So Spacious
and Bright!

At one end of each coach, an extra-large powder room for women—at the other, an equally large washroom for men.

In utility and thoughtfulness as well as decorative beauty, these rooms surpass anything hitherto achieved. For example, each room has two toilet annexes...three glistening washstands plus a dental bowl...a wealth of mirrors. For women—a vanity table; for men—outlets for electric shavers.
