

*Autumn aspens turn the mountainsides of New Mexico and Arizona to gold during the fall season of the year.*

*The aspen is one of the most graceful trees in the Southwest and thrives in the upper mountain areas.*

*When the first warmth of summer penetrates the mountains, the aspen presents a tender green leaf that turns greener in the summer. With the first chill of autumn the leaves lose their green and turn a golden yellow and brown.*

*Autumn Aspens, by Freemont Ellis, reproduced on the cover of this menu, is from the Santa Fe collection of famous paintings of the Southwest.*

Autumn Aspens
