

Roaring through canyons and deserts, the rushing waters of the Colorado River are harnessed by Boulder Dam, a masterpiece of masonry, just a short distance from Las Vegas, Nevada. The result is a vast reservoir, Lake Mead, which covers 227 square miles . . . largest artificial lake in the world.

The thousands of visitors who marvel at this engineering triumph find additional interest and enjoyment in the scenic beauty of the Lake Mead region and in the variety of its recreational opportunities. Imagine surf-boarding in the heart of the desert! Other pleasant diversions are sail-boating and bathing. Here, too, is some really fine fishing.

When traveling to or from California via Union Pacific, you can arrange in advance for a stop-over at romantic Las Vegas and visit near-by Boulder Dam and Lake Mead. Modern, convenient accommodations are available.

Boulder Dam, near Las Vegas, Nev.—world's highest—creator of vast electric energy, and of huge Lake Mead above it.
