FRENCH FRIED IDAHO ONIONS
with
IDAHO POTATO MEAL

15 Cents Per Portion

The Onion is a valuable food. It stimulates the flow of digestive juices, increases appetite, contributes important minerals and vitamins and serves to maintain alkalinity of the blood. It is not fattening.

Idaho Potato Meal contains all of the valuable proteins and mineral salts deposited by nature in the whole potato. It is not potato starch. It is an ideal frying ingredient for use in the home as any fried food dredged with Potato Meal insures a crispy brown flavorful and non-starchy crust to the finished food.

GOLDEN GATE INTERNATIONAL EXPOSITION

San Francisco Bay

February 18 — December 2, 1939

MAN-MADE Treasure Island, in San Francisco Bay, is to be the home of the Golden Gate International Exposition. The site is most fortunate. The Bay waters are sheltered by low-lying hills; to the East are Oakland and Berkeley; to the South, the Peninsula; to the North, the Redwood Empire. Within this metropolitan area lie the colorful attractions that make San Francisco a fascinating city, cosmopolitan in tempo, yet truly western in spirit.

And what a World's Fair it promises to be! The drama of progress will be enacted . . . electricity and communications . . . mines and machinery . . . homes and gardens . . . health, science and education. Foreign nations will bring to Treasure Island exhibits that eloquently depict the customs and habits of beyond-the-horizon lands.

Union Pacific provides a variety of fine rail service between Chicago and San Francisco on the Streamliner "City of San Francisco" . . . the "Forty Niner" . . . the Overland Limited . . . and the Pacific Limited.

THE PROGRESSIVE

UNION
