**FIRST PAGE** Gigantic Hoover Dam, about 29 miles from Las Vegas, Nevada, represents one of the great engineering feats of our generation. It extends across the Colorado River between Nevada and Arizona, holds back the raging stream and diverts its energy into industrial power uses.

**JANUARY** Sun Valley lies in the foothills of the Sawtooth Mountains in Idaho. There is an excellent terrain with long timber-free ski runs, and a record of plenty of dry, powder snow lasting into the spring months. At this world-famed ski center is an alpine type village comprising Sun Valley Lodge, Challenger Inn, several chalets and cottages, an opera house, stores, Post Office and other buildings.
