

Summer visitors to Denver never fail to marvel at the beauty of her spacious city parks, dotted with graceful ornamental flower beds of flaming beauty. With early and commendable foresight, Denver planned these fine parks together with a system of boulevards and drives which connect them. Today they are, at the same time, the source of admiration and envy of visitors from less fortunate or progressive communities.

Vast City Park, comprised of 468 acres, in addition to its other attractions—which are many—is the site of the Denver Museum of Natural History, which contains a rare collection of the flora and fauna native to the State, as well as meteors, minerals and prehistoric animals. Famous Cheeseman Park is the scene each summer of free opera concerts. There are many other fine parks as well as excellent municipal and private golf courses within the confines of the City. Denver Mountain Parks, adjacent to Denver, embracing more than 20,000 acres of scenic playgrounds, also the Park of the Red Rocks and Red Rocks Theatre where summer symphonies and outstanding opera stars are presented, are attractions which never fail to lure and thrill thousands of visitors. Near-by Central City is also famous for its summer opera. These and the countless other attractions of Denver and the State of Colorado, together with the delightful year 'round climate, give a hint as to why Coloradoans play host, each year, to a large portion of the Nation's vacationists.

The well-kept flower gardens and carpet-like lawns of Washington Park, Denver, are typical of this "City of Beautiful Parks."
