

California means many things to many people and offers almost every kind of scenic delight and vacation attraction. There are snowy mountains, fascinating deserts, and warm sea beaches. Its four National Parks are Lassen Volcanic, Sequoia, Kings Canyon and world-renowned Yosemite, in addition to Death Valley National Monument.

California calls to the traveler, the pleasure seeker, and the home builder. Its mountains, its seashore, its great romantic cities, and its industrial opportunities each extend the invitation. Among its attractions, not the least are its network of fine highways, its splendid city boulevards, and its scenic drives.

The cities of California are among the most interesting and romantic in the world: San Diego with its year around equable climate, Los Angeles with its nearby movie colonies, San Francisco at the Golden Gate, reminiscent of pioneer and gold-rush days, and many others.
