

10072. MAMMOTH HOT SPRINGS TERRACES, YELLOWSTONE PARK.

HAYNES-PHOTO.

## POST CARD

Mammoth Hot Springs Terraces, Yellowstone Park, are large, beautifully formed and colored steps, composed of almost pure calcium carbonate called travertine. The low form of plant life growing in the warm water gives various colors to these formations.

ADDRESS.

Lake Hotel <sup>9/11/27</sup>  
Yellow Stone Park  
Wyo.

Mr. W. Harding  
Federal Reserve Bank  
Chicago, Ill.  
Mngr. Mail Dept.

Dear Sir  
Will endeavor  
to tell you about  
this wonderfull Co.  
when I get back, if  
language dont fail me.  
Very truly  
yours
