

**Burlington  
Route**

100<sup>th</sup>

*Anniversary*

1849-1949

*Way of the Zephyrs and Vista-Domes*

The Burlington Lines of today had its inception in the tiny 12-mile Aurora Branch, chartered on February 12, 1849. From this modest beginning has emerged an 11,000 mile network of rails reaching into 14 Midwestern states. Burlington was first to operate a railway postoffice car; first to inaugurate a Diesel streamlined train; and first to introduce a Vista-Dome car.
