

THE VISTA DOME

A THRILLING INNOVATION IN TRAVEL ENJOYMENT

The Burlington presents the VISTA DOME, an entirely new idea in train travel. In this new type car, 24 passengers are seated in the Vista Dome, a laminated, heat and ray-resisting glass penthouse, replacing a section of the roof and providing an unobstructed view in all directions. Modern air-conditioning affords complete comfort. Burlington is building a fleet of these cars for the enjoyment of its patrons.
