NEW LINE OF GENERAL MOTORS LOCOMOTIVES

MILWAUKEE gets 14 new 1750 H.P. SD9 units

To handle heavy tonnage on light rail in its western territory, the Chicago, Milwaukee, St. Paul & Pacific is taking delivery on 14 new General Motors 6-motor Diesel road switchers. With horsepower increased to 1750, and total

weight kept below 300,000 lbs., this sure-footed heavy hauler delivers phenomenal drawbar pull. Write us or ask your EMD representative for complete specifications.
