You’ll see for yourself why our oldest, largest national park is one of the nation’s most popular playgrounds. Old Faithful, best known of Yellowstone’s geysers, erupts every hour, sending its plume of steam and hot water 150 feet into the sky.

Mountain peaks and mighty gorges—you look down on both from the spectacular Red Lodge High Road, en route to Yellowstone. This road crosses the crest of the Beartooth Rockies at 11,000 feet.

"TRAVELLER'S REST"

and Pullman Observation-Lounge

Traveller's Rest was the name which the illustrious explorers, Captains Meriwether Lewis and William Clark, gave a favorite camp site in western Montana. You'll find this striking new Buffet-Lounge, decorated in an authentic Lewis and Clark theme by Raymond Loewy Associates, one of the most fascinating railroad cars you've ever experienced.

Original murals, copies of authentic letters, maps and mementos tell the colorful story of the historic expedition across the Northwest a century and a half ago—along the very route you travel on the Northern Pacific.

A luxurious observation-lounge, exclusively for Pullman passengers, is on the rear of the train. There are seats for 26, tables for cards, writing desk, magazines, radio and beverage service. A section of the lounge is shown at the left.

Good company, good drinks and comfortable surroundings make the Traveller's Rest Lounge a favorite gathering place.
The majestic peaks of the rugged Teton Range form a spectacular backdrop for this view from across the waters of Jackson Lake.

GRAND TETON NATIONAL PARK

This area, famed for the rugged beauty of the lofty Teton Peaks, also embraces a part of the historic Jackson Hole of Western Wyoming. Grand Teton Park adjoins Yellowstone Park on the south and may be easily included as an extra sightseeing bonus of one or more days, with your Northern Pacific Yellowstone tour. The Snake river and lovely lakes add to the scenic grandeur of the region.
